Blacks In White Colleges:

The Agony of Education Joe R. Feagin, Hernan Vera, Nikitah Imani, 2014-04-23 The Agony of Education is about the life experience of African American students attending a historically white university Based on seventy seven interviews conducted with black students and parents concerning their experiences with one state university as well as published and unpublished studies of the black experience at state universities at large this study captures the painful choices and agonizing dilemmas at the heart of the decisions African Americans must make about higher education

College in Black and White Walter Recharde Allen, Edgar G. Blacks in White Colleges George Lynn Cross, 2014-03-24 When George Lynn Cross arrived to teach botany at the University of Oklahoma in the summer of 1934 racial segregation was so strong in Norman that no African American dared remain within the city limits after sundown Almost ten years later when Cross became president of the university the full extent of Oklahoma s segregation laws came sharply into focus This book is President Cross s story of the events leading to the desegregation of the University of Oklahoma in 1948 with the admission of George W McLaurin to the Graduate School of Education Earlier a young black woman Ada Lois Sipuel Fisher had applied to the OU School of Law and been denied admission because of her race With the help of attorneys from the NAACP she took her case to the U S Supreme Court The High Court equivocated and a separate but equal law school was hastily established in Oklahoma City as a branch of all black Langston University It was not until three years later and then only after the intervention of President Cross who personally overrode the law s delay that Ms Fisher was able to study at the University of Oklahoma from which she later graduated with honors Cross places these momentous events in historical context The story of desegregation at the University of Oklahoma a landmark in the continuing struggle for racial equality in the United States makes for an engrossing book

Blacks on White Campuses, Whites on Black Campuses Andrew Billingsley, Ada M. Elam, 1986 **The Black/white Colleges** Carole A. Williams, United States Commission on Civil Rights, 1981 **Black Educators in White Colleges** William Moore, Lonnie H. Wagstaff, 1974 **Stepping Over the Color Line** Amy Stuart Wells, Robert L. Crain, 1997-01-01

This important book takes the discussion of racial inequality in America beyond simplistic arguments of white racism and black victimization to a more complex conversation about the separate but unequal situation in many schools today Amy Stuart Wells and Robert Crain investigate the St Louis Missouri school desegregation plan a unique agreement that since 1983 has given black inner city students the right to choose to attend predominantly white suburban schools After five years of research and hundreds of interviews with policymakers administrators teachers students and parents Wells and Crain conclude that when school desegregation is examined from these many perspectives more strengths than weaknesses emerge They call for a reexamination of now popular school choice policies across the country so that these policies may help to bring about more racial and social class integration Stepping over the Color Line intertwines data on student achievement and racial isolation with stories of the people who participated in the St Louis program The authors set these individuals within a broad historical and social context and demonstrate how important linkages between the past and present help explain why efforts to overcome racial inequality in St Louis and in the larger society are so difficult The authors do a superb job of explaining how this innovative program came about placing it in a broad context that takes it beyond its immediate and local implications The book is at times heartbreaking and at times uplifting Richard Zweigenhaft co author of Blacks in the White Establishment A Study of Race and Class in America Black Students at White Colleges Charles Vert Willie, Arline Sakuma McCord, 1972 **Historically Black Colleges and Universities** M. Gasman, 2008-12-08 Historically Black colleges and universities play a vital role in the education of African Americans in the United States For nearly 150 years these institutions have trained the leadership of the Black community graduating the nation s African American teachers doctors lawyers and scientists Despite the wealth of new research on Black colleges there are topics that remain untouched and accomplishments that go unnoticed by the scholarly community The chapters in this edited volume focus on topics that deserve further attention and that will push students scholars policymakers and Black college administrators to reexamine
