Allied Submarines Of World War Two:

Japanese Submarines in World War Two Terry C Treadwell,2022-06-30 The Imperial Japanese Navy developed the submarine faster than any other country in the world But as a result of rivalries between the two military hierarchies the Army and the Navy they never utilized the submarine to its full extent Nevertheless during the Second World War Japan deployed a number of unique submarines These included the Type B1 which carried a Yokosuka E14Y1 reconnaissance seaplane in a watertight capsule attached to the deck of the submarine One of these aircraft carried out two bomb attacks on a forest in Oregon by dropping six incendiary bombs taking the war to the American mainland The use of aircraft from submarines as scout planes proved not to be as successful as hoped mainly because of the difficulty after launching the aircraft of it finding the submarine again in the vast Pacific and Indian Oceans The Japanese also developed the giant I 400 class submarines that carried three Sieran bombers There were other notable actions involving IJN submarines This included I 17 that attempted to shell unsuccessfully an oil refinery off the coast of Santa Barbara causing a major panic along the West Coast of America Also memorable are the midget submarines that attempted to attack Pearl Harbor and the submarines that carried the one man submarines Kaitens and the human torpedoes The submarine losses suffered by the Japanese Navy as the war progressed when Allied and in particular US destroyers and aircraft hunted them down are all recorded in this comprehensive account of a fascinating element of the war at sea *Japanese Submarine Losses to Allied Submarines in World War II* Vernon J. British Submarines in Two World Wars Norman Friedman,2019-03-30 An indispensable guide to the Royal Navy s submarines through 1945 with numerous photos and

original plans The Naval Review The Royal Navy didn't invent the submarine but in 1914 Britain had the largest submarine fleet in the world and at the end of World War I it had some of the largest and most unusual of all submarines whose origins and designs are all detailed in this book During the First World War they virtually closed the Baltic to German iron ore traffic and blocked supplies to the Turkish army at Gallipoli They were a major element in the North Sea battles and fought the U boat menace During World War II US submarines were known for strangling Japan but lesser known is the parallel battle by British submarines in the Mediterranean to strangle the German army in North Africa Like their US counterparts interwar British submarines were designed largely with the demands of a possible Pacific War though that was not the war they fought The author also shows how the demands of such a war fought over vast distances collided with interwar British Government attempts to limit costs It says much about the ingenuity of British submarine designers that they met their requirements despite enormous pressure The author shows how evolving strategic and tactical requirements and evolving technology produced successive types of design British submariners contributed much to the development of anti submarine tactics and technology beginning with largely unknown efforts before World War I Between the wars they exploited the new technology of sonar Asdic and as a result pioneered submarine silencing with important advantages to the US Navy as it observed the British They also pioneered the vital postwar use of submarines as anti submarine weapons sinking a U boat while both were submerged Heavily illustrated with photos and original plans and incorporating much original analysis this book is ideal for naval historians and enthusiasts Sure to become the standard reference for British submarine development for years to come Warship

The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual Ron Martini, 2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal
