Aloe Mythmagic Medicine:

Aloe Vera Alasdair Barcroft, Audun Myskja, 2003-09 This is Alasdair Barcroft's third book on the subject of aloe vera and he believes the aloe vera topic will run and run as more and more people both lay people and professional healthcare specialists and therapists alike begin fully to understand the powerful healing and health giving properties of this amazing plant. He believes that we are still scratching the surface in terms of aloe vera's vast potential. Aloe vera has been around for over 4 000 years; it has stood the test of time and it still continues to confound and very often baffle the medical profession and scientific researchers with its complex silent actions, potent properties and powerful healing benefits. Aloe vera truly is nature's silent healer. Aloe vera has been known for its wide ranging healing properties for over 4 000 years, but it is only in the last few decades that scientists have really begun both to realise and understand the enormous scope of this amazing plant's actions and benefits. Medical practitioners, vets, dentists, therapists, nutritionists and many others involved in healthcare throughout the world are finally realising that the anecdotal evidence of the powers of this ancient plant is

Aloe Odus M. Hennessee, Bill R. Cook, 1989 ALOE MYTH MAGIC MEDICINE is the definitive work on Aloe Vera. This award winning book describes how Aloe Vera is being used successfully in the treatment for AIDS, explains how Aloe Vera is to an AIDS patient what insulin is to a diabetic. MYTH MAGIC MEDICINE traces the 3500 year recorded history of Aloe Vera, explains everything you need to know about this healing plant. **Cancer Can Be Cured!** Father Romano Zago, 2008-11-24 Father Romano Zago, a Franciscan Friar and scholar, wrote the book *Cancer Can Be Cured* to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of Aloe Arborescens and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande do Sul, Brazil, that he and the provincial Father Arno Reckziegel witnessed the healing of simple people of cancer who used this recipe. Later when he had assignments in Israel and Italy where this aloe species grows naturally, he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching the science behind this aloe species and the publication of that research in this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf Aloe arborescens juice, honey and a small amount of distillate 1% how to take the preparation, questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve, the internationalization of the recipe on five continents, anecdotal stories of some body healings, the composition of Aloe and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid

the body's defenses to enhance the immune system and protect against diseases. Internationally known authors Joseph Pizzorno and Michael Murray include detailed pharmacologic information on herbs and supplements, plus evidence-based coverage of diseases and conditions to help you make accurate diagnoses and provide effective therapy. Comprehensive, unique coverage makes this book the gold standard in natural medicine. A scientific presentation includes the science behind concepts and treatments and discusses Western medical treatments and how they can work with natural medicine in a comprehensive treatment plan. If natural medicine is not effective, this book recommends the Western treatment. Coverage of pharmacology of natural medicines includes the uses and potential dangers of nearly 80 herbal medicines, special nutrients, and other natural agents addressing topics such as general information, chemical composition, history, pharmacology, clinical applications, dosage, and toxicology. In-depth, evidence-based coverage of 73 diseases and conditions includes key diagnostic criteria, pathophysiology of diseases, and therapeutic rationales. Coverage of potential interactions between drugs, herbs, and supplements ensures the safest possible use for each of 79 herbs and supplements. Diagnostic procedures include practical, easy-to-follow descriptions of evidence-based techniques, plus discussions of clinical application of diet analysis, food allergy testing, immune function assessment, fatty acid profiling, hair mineral analysis, and other diagnostic approaches. Common therapeutic modalities are described and reviewed, including botanical medicine, nutritional therapy, therapeutic fasting, exercise therapy, hydrotherapy, counseling, acupuncture, homeopathy, and soft tissue manipulation. Coverage of syndromes and therapies helps in understanding the underlying causes of diseases by discussing topics such as food reactions, functional toxicology, sports nutrition, stress management, and breathing pattern disorders. Coverage of the philosophy of natural medicine includes its history and background with discussions of toxicity, detoxification, and scientific documentation of the healing actions of nature and natural substances. Internationally known authors Joseph Pizzorno and Michael Murray, and more than 90 expert contributors, provide material that is up-to-date, accurate, and informed. More than 10,000 research literature citations show that the content is based on science rather than opinions or anecdotes. 13 useful appendices offer quick lookup of frequently used charts, handouts, and information. *Textbook of Natural Medicine* Joseph
