

Always say Maybe

A modern girl guide to almost everything—but mostly Men!

For two thousand years, this most and most basic can be a stepping stone into the world of the just back account—and other shared benefits too beautiful to mention without musical accompaniment.

Handbook/Guide's funny but effective advice covers basic strategy (how to meet men), campaign tactics (how to attract a man's attention, build his interest, and ensure his success), and many worthwhile side operations (how to get presents out of men, how to engineer choice meetings, how to look helpless while thinking fast, etc.).

Then, too, is a store of information—worth its weight in wedding bands—on related topics such as Types to Run From, Signs to Look Interested In, and How to Show Them the Action Without Bringing It to a Dead Stop. Plus a handy checklist of cities and states, which enables a girl to see at a glance where she will find men in about seven or where her two-week vacation will be a total loss.

This book is also recommended for ladies who want to know in advance how the future will be learned.
