Assisting The Invisible Hand Contested Relations Between Market State And Civil Society:

Assisting the Invisible Hand W. Dubbink, 2013-03-09 This is an investigation into contemporary thinking on controlling the market especially with regard to the problem of dealing with environmental issues The book contributes to contemporary insight by arguing that the issue of market control must be addressed in terms of the relations between state market and civil society It stresses the normative dimensions of the market control issue The position adopted by the book is that the market cannot be controlled by the state alone

Approaching Natural Resources for Sustainable Development in Indonesia

Henny Warsilah, Agus Heri Purnomo, 2025-09-25 This book brings to light the sustainability dilemma in Southeast Asia with a sharp focus on Indonesia's rapid economic growth and its profound impact on natural resources ecosystems and society It examines the complex challenge of fostering strong economic development while avoiding environmental degradation and social dislocation Central to this discourse is the vital role of government regulation and the imperative of community involvement in managing natural resources Indonesia's economic boom mirroring trends across Asia has triggered escalating land use conflicts in forests peatlands rural urban zones and karst landscapes This is paralleled by expanding access to coal tin and oil and gas leading to large scale extractive operations and widespread environmental damage The book adopts a sustainable development framework exploring its ecological economic social and political dimensions Crucially it argues that today's socio ecological crisis is not just a consequence of growth but a systemic condition rooted in capitalism Written by leading experts the book offers interdisciplinary perspectives socio cultural legal political and economic supported by detailed case studies A timely and essential resource for policymakers researchers and practitioners committed to Indonesia's sustainable future

Partnerships, Governance and Sustainable Development P. Glasbergen, Frank Biermann, A. P. J. Mol, 2007 this is a book to read for anybody who wants a good overview of ongoing research on environmental partnerships in public administration business administration political science and sociology Thomas Sikor Journal of Integrative Environmental Sciences The profit of this book is the well proportioned mixture of theoretical reflections and empirical findings mostly presented in the form of case studies the volume offers a well structured and recommendable account of the current state of governance and partnerships in the field of sustainable development Thomas Krumm Political Studies Review This well structured volume brings together a group of leading experts on an important emerging topic of global and local environmental policy The book is highly recommended for every student and scholar in the field of environmental governance Martin J. Nicke Freie Universität Berlin Germany Partnerships have emerged as a critical best practice in the pursuit of sustainability Glasbergen Biermann and Mol's book explores the partnership issue from a variety of empirical and theoretical perspectives highlighting how to understand them and what not to do Highly recommended Daniel C. Esty Yale University US This significant study discusses the emergence of partnerships for sustainable development as an innovative and potentially influential new type of governance With contributions from leading experts in the field the partnership paradigm is discussed

and the contributors explore the process extent and circumstances under which partnerships can improve the legitimacy and effectiveness of governance for sustainable development Scientific research on partnerships within the context of governance theory is fairly new and there is a clear need to systemize a knowledge base to further define the international research agenda In addition there is an urgent demand from governments and international organizations as well as from non governmental actors for strategic insights to build upon their activities in this field This book is designed to address the questions debates and agendas related to this new mode of governance This multi disciplinary book brings together unique perspectives from organizational theory policy science sociology and political science As such it will be warmly welcomed by academics of environmental policy and politics as well as scholars and researchers interested in governance for sustainable development It will also appeal to public policy scholars

Protected Areas and Tourism in Southern Africa Lesego Senyana Stone, Moren Tibabo Stone, Patricia Kefilwe Mogomotsi, Goemeone E.J. Mogomotsi, 2022-03-23 This volume discusses the complex relationship between Protected Areas and tourism and their impact on community livelihoods in a range of countries in Southern Africa Protected areas and tourism have an enduring and symbiotic relationship While protected areas offer a desirable setting for tourism products tourism provides revenue that can contribute to conservation efforts This can bring benefits to local communities but it can also have a negative impact with the establishment of protected areas leading to the eviction of local communities from their original places of residence while also preventing them from accessing the natural resources they once enjoyed Taking a multi disciplinary approach this book addresses the opportunities and challenges faced by communities and other stakeholders as they endeavour to achieve their conservation goals and work towards improving community livelihoods Case studies from Botswana Malawi Namibia South Africa Tanzania Zambia and Zimbabwe address key issues such as human wildlife conflicts ecotourism wildlife based tourism landscape governance wildlife crop raiding and trophy hunting including the high profile case of Cecil the lion Chapters highlight both the achievements and positive outcomes of protected areas but also the challenges faced and their impact on how protected areas are viewed and also conservation priorities more generally The volume gives these issues affecting protected areas local communities managers and international conservation efforts centre stage in order inform policy and improve practice going forward This book will be of great interest to students and scholars of conservation natural resource management tourism sustainable development and African studies as well as professionals and policymakers

involved in conservation policy Urban Climate Politics Jeroen van der Heijden, Harriet Bulkeley, Chiara Certomà, 2019-05-09 Since the 1990s a burgeoning literature has emerged on the politics and governance of urban climate. It is now evident that urban responses to climate change involve a diverse range of actors as well as forms of agency that cross traditional boundaries and which have diverse consequences for disempowering different social groups. This book provides an overview of the forms of agency in urban climate politics, discussing the friction and power dynamics between them. Written by renowned scholars, it critically assesses the advantages and limitations of increasing agency in urban climate governance. In doing so, it sheds critical new light on the existing literature, advances the state of knowledge of urban climate governance, and discusses ways to accelerate urban climate action. With chapters building on case studies from across the world, it is ideal for scholars and practitioners working in the area of urban climate politics and governance. This is one of a series of publications associated with the Earth System Governance Project. For more publications, see www.cambridge.org/earth-system-governance.

The Routledge Handbook of Collective Responsibility Saba Bazargan-Forward, Deborah Tollefsen, 2020-04-19 The Routledge Handbook of Collective Responsibility comprehensively addresses questions about who is responsible and how blame or praise should be attributed when human agents act together. Such questions include: Do individuals share responsibility for the outcome, or are individuals responsible only for their contribution to the act? Are individuals responsible for actions done by their group even when they don't contribute to the outcome? Can a corporation or institution be held morally responsible apart from the responsibility of its members? The Handbook's 35 chapters, all appearing here for the first time and written by an international team of experts, are organized into four parts: Part I Foundations of Collective Responsibility; Part II Theoretical Issues in Collective Responsibility; Part III Domains of Collective Responsibility; Part IV Applied Issues in Collective Responsibility. Each part begins with a short introduction that provides an overview of issues and debates within that area and a brief summary of its chapters. In addition, a comprehensive index allows readers to better navigate the entirety of the volume's contents. The result is the first major work in the field that serves as an instructional aid for those in advanced undergraduate courses and graduate seminars, as well as a reference for scholars interested in learning more about collective responsibility.

Globalization and Sustainable Development Martin Oyevaar, Diego Vazquez-Brust, Harrie W.M. Van Bommel, 2017-09-16 This important core textbook explores the complex and dynamic nature of globalization and sustainability, analyzing the main ideas, ethical principles, and processes driving the growth and development of the global economy. Including a wide range of international cases from a variety of industries, it anchors key concepts in a modern global context and provides an overall picture of what it means to be a sustainable business. Bridging international business, business ethics, and sustainable development, the text enables students to place core concepts into a modern global context and provides an extensive and engaging pedagogical framework that carries the student from a foundation level through to a more advanced analysis. This is an ideal textbook for undergraduate and

postgraduate students taking modules in international business sustainable development the global economy or globalisation

The Future of High-Cost Credit Jodi Gardner, 2022-07-14 This book proposes a new way of thinking about the controversial and complex challenges associated with the regulation of high cost credit specifically payday lending These products have received significant attention in both the media and political arena The inadequacy of regulatory interventions has created ongoing problems with the provision of high cost credit particularly for consumers with lesser bargaining power and who are already financially vulnerable The book tackles two specific gaps in the existing literature The first involves inadequate analysis of the relevant philosophical concepts around high cost credit which can result in an over simplification of what are particularly complex issues The second is a lack of engagement in both the market and lived experience of borrowers resulting in limited understanding of those who use these financial products The Future of High Cost Credit explores the theoretical grounding policy initiatives and interdisciplinary perspectives associated with high cost credit making a novel and insightful contribution to the existing literature The problems with debt extend far beyond the legal sphere and the book will therefore be of interest to many other academic disciplines as well as for those working in public policy and the third sector Protected Areas, Sustainable Tourism and Community Livelihood Linkages Moren

Stone, Lesego Stone, Gyan Nyaupane, 2024-10-11 The book uses a multi disciplinary approach to address lessons learned and challenges encountered over the years in different ecological economic political and cultural contexts Protected areas were originally established as recreational spaces and to protect some components of nature however today they are also expected to provide an increasing range of benefits to an array of people Protected areas no longer simply protect but they also provide ecosystem services and facilitate poverty reduction via local development ecotourism and sustainable resource use Integrating tourism and conservation with existing local historical socio economic and institutional landscapes is associated with the promotion of local community participation in resource management The book adopts an interdisciplinary approach to understand social ecological systems that explain the relationship between protected areas tourism and community livelihoods linkages The book provides a platform for dialogue to develop a better understanding of the complex relationships between protected areas tourism and community livelihoods linkages Due to the role tourism plays in poverty alleviation conservation empowerment and addressing other environmental and social challenges the book also connects tourism with the UN Sustainable Development Goals This book will be of great interest to students scholars and policymakers of tourism conservation natural resource management sustainable development as well as professionals and policymakers involved in conservation policy The chapters in this book were originally published as a special issue of Journal of Sustainable Tourism
