Coworking Spaces Ideas:

Coworking Spaces Janet Merkel, Dimitris Pettas, Vasilis Avdikos, 2023-11-07 This contributed volume considers the emergence of coworking as centered in labor issues. More specifically its chapters consider it as a coping mechanism in the worldwide rise of independent modes of work i.e. self employment that leaves more and more workers exposed to precarity as they must organize and manage their own labor. Grounded in this perspective this volume aims to understand the transformative social and political potentials emerging through coworking as a social and spatial practice. There is a distinct lack of discussion within coworking research on the emancipatory potentials of coworking and if it is discussed more cautionary views prevail highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into market economies. The aims of this collection are twofold. First it aims to make visible the plurality of existing practices around shared resources in coworking and the assemblages of human and non human actors as agents of change associated with coworking and the re organization of work and labor power. And second it aims to develop a more emancipatory narrative for coworking and the role of coworking spaces for workers but also the different spatial contexts in which these spaces are situated. A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal entrepreneurial self as in the dominant interpretations in the current research but rather one that centers coworking in the creation of meaningful careful social relationships supporting empathy and an ethics that recognizes mutual interdependencies and builds a foundation for social change. So it is about alternative narratives emancipation politics and the wider social role that coworking spaces might play in neighborhoods cities or beyond because they are crucial contexts for the formation and maintenance of social relations. With this specific direction this collection aims to bring coworking research into a fruitful dialog with other research fields such as sociology of work feminist perspectives on care alternative and diverse economies post capitalist transformation critical geography positioning coworking within a range of progressive alternatives in the articulation of economic and social relationships.

Plug&Play Places Robert Nadler, 2014-10-08 In post industrial societies more and more people earn an income in creative knowledge work a highly flexible labour market segment that demands a geographically mobile workforce Creative knowledge work is based on an understanding of language culture and symbolic meanings This can best be obtained through local and national embeddedness Yet this necessity for embeddedness stands in contrast to the demand in geographical mobility How is this contradiction solved by individuals What new forms of place attachment does this bring about This book introduces a showcase of 25 multilocal creative knowledge workers who live in different countries at the same time It investigates how continuous mobility becomes part of their lifeworld and how it changes their feelings of belonging and practices of place attachment Applying an innovative methodological mix of social phenomenology hermeneutics and mental mapping this book takes a detailed look at biographies and the role of places in mobile lifeworlds Plug Play Places brings forth the idea that places have to be understood as individual items which are configured and then plugged into the system of the own lifeworld They can be played without great effort once an individual needs to make use of them This new type of place attachment is a form of subjective standardization of place which complements the well known

models of objective standardization of places Plug Play Places is relevant for scientists who deal with mobility and its impact on individual lifeworlds with transnational multilocality and with flexibilized labour markets Furthermore the book provides a detailed qualitative perspective which can enrich the explanations of quantitative research in the same field It is an interesting reading also for practitioners engaged in urban planning housing and real estate development Robert Nadler holds a doctoral degree in Urban and Local European Studies from the University of Milan Bicocca He is a researcher at the Leibniz Institute for Regional Geography and published on creative industries multilocality and labour mobility [The Way of the Hustler - Launching to Success in One Year](#) Simone Janson,2025-06-02 Also in the 2nd revised and improved edition published by a government funded publisher involved in EU programs and a partner of the Federal Ministry of Education you receive the concentrated expertise of renowned experts overview in the book preview embedded in an integrated knowledge system with premium content and 75% advantage At the same time you are doing good and supporting sustainable projects Because a successful start requires clear goals and decisive action Success demands hard work and determination With this book you ll gain the knowledge to kickstart your career in just one year and achieve your objectives Through clear instructions and practical tips you ll be empowered to significantly advance your career and confidently explore new paths Learn step by step how to climb the ladder of success and realize your dreams With its integrated knowledge system and Info on Demand concept the publisher not only participated in an EU funded program but was also awarded the Global Business Award as Publisher of the Year Therefore by purchasing this book you are also doing good The publisher is financially and personally involved in socially relevant projects such as tree planting campaigns the establishment of scholarships sustainable innovations and many other ideas The goal of providing you with the best possible content on topics such as career finance management recruiting or psychology goes far beyond the static nature of traditional books The interactive book not only imparts expert knowledge but also allows you to ask individual questions and receive personal advice In doing so expertise and technical innovation go hand in hand as we take the responsibility of delivering well researched and reliable content as well as the trust you place in us very seriously Therefore all texts are written by experts in their field Only for better accessibility of information do we rely on AI supported data analysis which assists you in your search for knowledge You also gain extensive premium services Each book includes detailed explanations and examples making it easier for you to successfully use the consultation services freeky available only to book buyers Additionally you can download e courses work with workbooks or engage with an active community This way you gain valuable resources that enhance your knowledge stimulate creativity and make your personal and professional goals achievable and successes tangible That s why as part of the reader community you have the unique opportunity to make your journey to personal success even more unforgettable with travel deals of up to 75% off Because we know that true success is not just a matter of the mind but is primarily the result of personal impressions and experiences Publisher and editor Simone Janson is also a bestselling author and one of the
