Routledge Handbook of Sustainable Product Design Jonathan Chapman, 2017-05-08 As a cultivated form of invention product design is a deeply human phenomenon that enables us to shape modify and alter the world around us for better or worse The recent emergence of the sustainability imperative in product design compels us to recalibrate the parameters of good design in an unsustainable age Written by designers for designers the Routledge Handbook of Sustainable Product Design presents the first systematic overview of the burgeoning field of sustainable product design Brimming with intelligent viewpoints critical propositions practical examples and rich theoretical analyses this book provides an essential point of reference for scholars and practitioners at the intersection of product design and sustainability The book takes readers to the depth of our engagements with the designed world to advance the social and ecological purpose of product design as a critical twenty first century practice Comprising 35 chapters across 6 thematic parts the book's contributors include the most significant international thinkers in this dynamic and evolving field

Environmentally-Friendly Product Development Eberhard Abele, Reiner Anderl, Herbert Birkhofer, 2007-08-06 Development of environmentally friendly products gains an increasing portance in science and in industry While product development was strongly dedicated to achieve quality cost and time targets environmental issues indirectly had always been under consideration by engineers see Fig 1 Furthermore a methodology for the development of environm tally sound products was missing Despite of significant progress in using computer aided tools for product development and design environmental aspects were attended Computer aided tools typically do not include methods for considering environmental issues enabling the designer to sess a product s environmental effects Fig 1 Vision of Environment as a key target for product development v vi Preface Product related environmental issues are getting more and more political and public awareness Development of environmentally friendly products has become an action item for both politics and industry UNFCCC 1997 Energy consumption is on the agenda and covers pollution and resource saving Typical topics of directives of the European Union are waste noise air pollution water nature and biodiversity soil protection civil protection and climate change After the translation into national law the development of environmentally friendly products is a basic approach to contribute to the fulfilment of the topics mentioned above In the European Community a Communication from the Commission to the Council and the European Parliament on Integrated Product Policy was adopted on th 18 June 2003 EC 2003

Environmental Information in Instructions for Use of Consumer Products Ari Nissinen, 2005-03-11 The European Union has highlighted the issue of environmentally sound use of products in the context of Integrated Product Policy IPP Accordingly consumers should have easy access to understandable relevant and credible environmental information Information about product characteristics is available in different forms and sources but in many cases relevant environmental information is not available on the product itself The study described in this report was initiated in order to produce information on the state of user instructions regarding environmental

information User manuals of passenger cars and refrigerators were focused on examining the advice which could diminish the harmful environmental effects of the use of these products Other studied products included such durable products as textiles and furniture as well as such consumables as cleaning chemicals and recyclable paper products The study raised many ideas about actions that could promote the status and eco development of instructions for use
