Peace Be Still Matthew C. Whitaker, 2014-01-01 A concise engaging and provocative history of African Americans since World War II *Peace Be Still* is also nothing less than an alternate history of the United States in the twentieth and twenty first centuries Organizing this history around culture politics and resistance Matthew C Whitaker takes us from World War II as a galvanizing force for African American activism and the modern civil rights movement to the culmination of generations of struggle in the election of Barack Obama From the promise of the post World War II era to the black power movement of the 1960s the economic and political struggles of the 1970s and the major ideological realignment of political culture during the 1980s 1990s and early 2000s this book chronicles a people fighting oppression while fashioning a dynamic culture of artistic and religious expression along with a program of educational and professional advancement A resurgence of rigid conservative right wing policies the politics of poverty racial profiling and police brutality are ongoing counterpoints to African Americans rising to political prominence and securing positions once denied them A history of African Americans for a new generation *Peace Be Still* demonstrates how dramatically African American history illuminates the promise conflicts contradictions hopes and victories that all Americans share

Decolonizing Revelation Rufus Burnett Jr., 2018-03-16 At a time when ideas like post racial society and BlackLivesMatter

occupy the same space scholars of black American faith are provided a unique opportunity to regenerate and imagine theological frameworks that confront the epistemic effects of racialization and its confluence with the theological imagination Decolonizing Revelation contributes to this task by rethinking or taking a second look at the cultural production of the blues Unlike other examinations of the blues that privilege the hermeneutic of race this work situates the blues spatially offering a transracial interpretation that looks to establish an option for disentangling racial ideology from the theological imagination This book dislocates race in particular and modernity in general as the primary means by which God's self disclosure is read across human history Rather than looking to the experience of antiblack racism as revelational the work looks to a people group blues people and their spatial sonic and sensual activities Following the basic theological premise that God is a God of life Burnett looks to the spaces where blues life occurs to construct a decolonial option for a theology of revelation
