Buganda In Modern History:

The Mind of Buganda Donald Anthony Low,1971 *Buganda in Modern History* Donald Anthony Low,1971 **A History of Modern Uganda** Richard J. Reid,2017-02-17 This book is the first major study in several decades to consider Uganda as a nation from its precolonial roots to the present day Here Richard J Reid examines the political economic and social history of Uganda providing a unique and wide ranging examination of its turbulent and dynamic past for all those studying Uganda s place in African history and African politics Reid identifies and examines key points of rupture and transition in Uganda s history emphasising dramatic political and social change in the precolonial era especially during the nineteenth century and he also examines the continuing repercussions of these developments in the colonial and postcolonial periods By considering the ways in which historical culture and consciousness has been ever present in political discourse art and literature and social relationships Reid defines the true extent of Uganda s viable national history **Eclipse of Empire** D. A. Low,1991 The middle decades of the twentieth century witnessed the great dramas of the ending of Western imperial rule in Africa and Asia A series of nationalist onslaughts was launched against the British Empire and these greatly reshaped the modern world Professor Anthony Low has studied the end of the British Empire and its aftermath for many years This volume brings together for the first time many of his major essays on the subject The Warrior Tradition in Modern Africa Ali Al Amin Mazrui,1977 The End of Empire in Uganda Spencer Mawby,2020-05-14 The negative legacy of the British empire is often thought of in terms of war and economic exploitation while the positive contribution is associated with the establishment of good governance and effective modern institutions In this new analysis of the end of empire in Uganda Spencer Mawby challenges these preconceptions by explaining the many difficulties which arose when the British attempted to impose western institutional models on Ugandan society Ranging from international institutions including the Commonwealth to state organisations like the parliament and army and to civic institutions such as trade unions the press and the Anglican church Mawby uncovers a wealth of new material about the way in which the British sought to consolidate their influence in the years prior to independence The book also investigates how Ugandans responded to institutional reform and innovation both before and after independence and in doing so sheds new light on the emergence of the notorious military dictatorship of Idi Amin By unpicking historical orthodoxies about 20th century imperial history this institutional history of the end of empire and the early years of independence offers an opportunity to think afresh about the nature of the colonial impact on Africa and the development of authoritarian rule on the continent The Warrior Tradition in Modern Africa Mazrui,2022-04-25 *To Speak and Be Heard* Holly Elisabeth Hanson,2022-08-12 A history of a political practice through which East Africans have sought to create calm harmonious polities for five hundred years To speak and be heard is a uniquely Ugandan approach to government that aligns power with groups of people that actively demonstrate their assent both through their physical presence and through essential gifts of goods and labor In contrast to a parliamentary democracy

the Ugandan system requires a level of active engagement much higher than simply casting a vote in periodic elections These political strategies assembly assent and powerful gifts can be traced from before the emergence of kingship in East Africa ca 1500 through enslavement colonial intervention and anticolonial protest They appear in the violence of the Idi Amin years and are present sometimes in dysfunctional ways in postcolonial politics Ugandans insisted on the necessity of multiple voices contributing to and affirming authority and citizens continued to believe in those principles even when colonial interference made good governance through building relationships almost impossible Through meticulous research Holly Hanson tells a history of the region that differs from commonly accepted views In contrast to the well established perception that colonial manipulation of Uganda s tribes made state failure inevitable Hanson argues that postcolonial Ugandans had the capacity to launch a united functional nation state and could have done so if leaders in Buganda Britain and Uganda s first governments had made different choices *Christian Heroes - Then and Now - Nate Saint Unit Study* Janet

Benge, Geoff Benge, 2001-06 Curriculum guide for use with the author s Nate Saint on a wing and a prayer *Sources of the African Past* David Robinson, 1999-06-21 Sources of the African Past combines a case study approach with an emphasis on primary and orally transmitted sources to accomplish three objectives to tell a story in some depth to portray major themes and to raise basic questions of analysis and interpretation The case studies are set in the nineteenth century and deal with critical periods in the fortunes of five societies in different parts of the continent South East and West Africa The authors wish students to work with the raw materials of history and to that end have provided a workbook for a laboratory experience Sources of the African Past is designed for use in a wide variety of courses and in conjunction with other texts The authors have kept their own interpretations to a minimum and invited scrutiny of their decision of selection and arrangement They chose the cases on the basis of several criteria geographical coverage abundance and diversity of primary sources importance in the secondary literature and relevance to important historical problems All the studies emphasize political change All witness some growth in European intervention In selecting the documents the authors sought a balance of perspective without sacrificing accuracy and relevance This means a conscious effort to present a variety of views African and European internal and external participant and observer those of the victims as well as those of the victors those of the people as well as those of the elite Within the limitations of space they have made the excerpts sufficiently long to allow the reader to examine the author s style purpose and other characteristics Keeping in mind the limitations of libraries they have attempted to make each chapter self contained
