Smith, 2004 The story of Savannah s historic public schools both black and white is one of modest beginnings noteworthy achievement and remarkable people As the small schoolhouses of downtown Savannah evolved into the sprawling educational complexes of today they maintained an impressive record of service to the community s most important citizens its young people Savannah s commitment to public education is as old as the city itself from the beginning efforts were made to ensure that education was available to all The opening of the Massie Common School in 1856 marked the start of the modern era of public education in Savannah For the first time a building was designed built staffed and maintained for the express purpose of providing education to all of the city s children regardless of their families ability to pay Massie Common School s first principal eventually left Savannah to become superintendent of Atlanta s public school system paving the way for local politicians who took their school board experiences with them when they were elected to state office These pioneers of public education in Savannah spread methods and practices established in local schools

throughout the state **Story City** Darrek D. Orwig,2012 In the early 1850s as settlers began to move into central Iowa a small pioneer community developed in the tall prairie grass These first settlers named their community Fairview and began to transform the rich soil along the Skunk River into productive farmland In the following years an influx of Scandinavian immigrants arrived in the area playing a major part in the development of a thriving rural community After the introduction of a railroad line the community continued to grow and was renamed Story City after US Supreme Court justice Joseph Story Today Story City is a heritage minded community with a thriving Main Street district a number of successful businesses and beautiful historic architecture American Book Publishing Record ,2006 **Building Savannah** David E. Kelley,2000 Savannah s distinct architecture has been studied and admired by scholars builders and tourists from all over the world and the history of its most prolific period of expansion and development is explored in this photographic essay A city that was spared the wrath of the Union forces Savannah emerged from the Civil War psychologically defeated but still physically intact During the second half of the nineteenth century this picturesque Georgia city enjoyed tremendous growth in a booming economic environment Building Savannah chronicles this period in the city s history with photographs sketches maps and advertisements many culled from the archives of the Georgia Historical Society Coupled with informative research these images illustrate every aspect of the building industry that thrived in Savannah Local architects and builders embraced the transformation that was sweeping the entire country and used both natural resources and technical innovation to create a unique built environment The building industries once fueled by the virgin resources of the South would be exhausted by the end of the Second World War As modern materials became popular the lumber mills withered old foundries closed and the industry was forever changed What was left in Savannah was the indelible mark of the building era seen in the careful craftsmanship and ornate design of its homes and businesses Pembroke 1905-2005 The Pembroke Centennial Committee,2005 A location between Savannah and Statesboro encouraged the town of Pembroke to grow into a hub of commercial activity Timber and turpentine from the Georgia pine forests as well as cotton were the main commercial activities of the early town The city of Pembroke began as a result of the extension of the Savannah and Western Railroad through the upper part of Bryan County in 1889 The town s first resident was M E Carter a member of the railroad construction crew who lived in a box car that was switched off at a siding Carter would later serve as mayor of Pembroke By the late 1890s substantial permanent buildings were being constructed and by 1900 Pembroke was the commercial center of Bryan County It was incorporated as a city in 1905 and the next 20 years saw Pembroke develop into a prosperous town with the formation of the first bank in Bryan County a school and many businesses **Haunted Histories in America** Nancy Hendricks,2020-10-06 If you believe in ghosts you re in good company Haunted Histories brings America s most ghostly locales to life illuminating their role in shaping U S history and detailing how they became the nation s most feared places Haunted Histories takes readers on a state by state journey across the United States exploring the nation s most feared

places Along the way the text introduces readers to new ghostly tales and takes a fresh look at familiar stories and locations with an eye to history From well known spooky spots like Salem Massachusetts to such lesser known ones as the Shanghai Tunnels of Portland Oregon where spirits are supposedly trapped readers will discover not only where America s most haunted places are but also why they are said to be haunted The ghosts of the doomed Donner Party allow readers to experience the arduous and often deadly journey of America s westward wagon trains while different kinds of spirits haunting old distilleries allow readers to discover how whiskey almost derailed the new American nation before it was born This book can be studied for academic purposes as a historical reference used as a source for classroom assignments or simply read for the pleasure of a great story **Forthcoming Books** Rose Arny,2004
