**Literature** Lesley D. Clement, Leyli Jamali, 2015-07-30 This volume visits death in children's literature from around the world making a substantial contribution to the dialogue between the expanding fields of Childhood Studies, Children's Literature and Death Studies. Considering both textual and pictorial representations of death, contributors focus on the topic of death in children's literature as a physical reality, a philosophical concept, a psychologically challenging adjustment, and/or a social construct. Essays covering literature from the US, Mexico, El Salvador, Guatemala, Canada, the UK, Sweden, Germany, Poland, Bulgaria, Brazil, Czechoslovakia, the Soviet Union, India, and Iran display a diverse range of theoretical and cultural perspectives. Carefully organized sections interrogate how classic texts have been adapted for the twenty-first century, how death has been politicized, ritualized, or metaphorized, and visual strategies for representing death, and how death has been represented within the context of play. Asking how different cultures present the concept of death to children, this volume is the first to bring together a global range of perspective on death in children's literature and will be a valuable contribution to an array of disciplines.

**Chivalric Stories as Children's Literature** Velma Bourgeois Richmond, 2014-09-24 Knights and ladies, giants and dragons, tournaments, battles, quests, and crusades are commonplace in stories for children. This book examines how late Victorians and Edwardians retold medieval narratives of chivalry, epics, romances, sagas, legends, and ballads. Stories of Beowulf, Arthur, Gawain, St. George, Roland, Robin Hood, and many more thrilled and instructed children and encouraged adult reading. Lavish volumes and schoolbooks of the era featured illustrated texts, many by major artists. Children's books, an essential part of Edwardian publishing, were disseminated throughout the English-speaking world. Many are being reprinted today. This book examines related contexts of Medievalism expressed in painting, architecture, music, and public celebrations, and the works of major authors including Sir Walter Scott, Tennyson, Longfellow, and William Morris. The book explores national identity expressed through literature, ideals of honor and valor in the years before World War I, and how childhood reading influenced 20th-century writers as diverse as C. S. Lewis, J. R. R. Tolkien, Siegfried Sassoon, David Jones, Graham Greene, Ian Fleming, and John Le Carré.

**Stories of Beowulf Told to Children** H. E. Marshall, 2011 The *Story of Beowulf Told to Children* is an Anglo-Saxon saga retold in excellent English prose with the heroic qualities emphasized. H. E. Marshall's story relates how Beowulf, the hero of the Anglo-Saxons, journeys to Daneland and how he overcomes Grendel, the ogre, and his mother, the water witch, then returns to his own land to serve as king. After 50 years of peace, the fire dragon makes war on the Goth folk, and Beowulf goes forth in combat against it, vanquishing his foe but in the end losing his life in ridding his people of its frightful enemy. An outstanding introduction to this tale for children ages 8 and up.

**Frontiers Past and Future** Carl Abbott, 2006 Abbott offers a fruitful new way to read science fiction, one that also greatly enriches our understanding of western history and its impact on our collective imagination. Detailing the overlap of science fiction and western fiction.

especially relating to their mutual interest in and concerns about frontier expansionism he reveals an unsuspected common ground that informs the writings of both camps Reviewing the work of many Hugo and Nebula Award winners as well as drawing upon popular film and television series like the Buck Rogers serials Abbott's study journeys across the far reaches of science fiction's universe
