Beirut Outtakes Larry Pintak, 1989-10 If any recent book can give insight into the tutorial that is Lebanon this is the one Readable Recommended for any library Annotation copyrighted by Book News Inc Portland OR Targeted: Beirut Jack Carr, James M. Scott, 2025-10-14 The first in a new authoritative shocking Brad Meltzer 1 New York Times bestselling author nonfiction series examining the devastating terrorist attacks that changed the course of history from 1 New York Times bestselling author Jack Carr and Pulitzer Prize finalist James M Scott beginning with the 1983 Marine barracks bombing in Beirut 1983 the United States Marine Corps experiences its greatest single day loss of life since the Battle of Iwo Jima when a truck packed with explosives crashes into their headquarters and barracks in Beirut Lebanon This horrifying terrorist attack which killed 241 servicemen continues to influence US foreign policy and haunts the Marine Corps to this day Now the full story is revealed as never before by Jack Carr and historian and Pulitzer Prize finalist James M Scott with this definitive behind the scenes account of a mission and a fight that changed America Doug Stanton 1 New York Times bestselling author Based on comprehensive interviews with survivors extensive military records as well as personal letters diaries and photographs this is a masterwork of research and storytelling Peter Schweizer 1 New York Times bestselling author **The New Arab Journalist** Lawrence Pintak, 2010-12-18 The Arab media is in the midst of a revolution that will inform questions of war and peace in the Middle East political and societal reform and relations between the West and the Arab World Drawing on the first broad cross border survey of Arab journalists first person interviews with scores of reporters and editors and his three decades experience reporting from the Middle East Lawrence Pintak examines how Arab journalists see themselves and their mission at this critical time in the evolution of the Arab media He explores how in a diverse Arab media landscape expressing myriad opinions journalists are still under siege as governments fight a rear guard action to manage the message This innovative book breaks through the stereotypes about Arab journalists to reveal the fascinating and complex reality and what it means for the rest of us *Peacekeepers at War* Col. Timothy J. Geraghty, USMC (Ret.), 2009-09-30 On October 23 1983 nearly simultaneous suicide truck bombings killed 241 U S peacekeepers in their barracks at the Beirut International Airport BIA and 58 French paratroopers at their headquarters two miles north of BIA In this long awaited book the Marine Corps commander of the U S Multi National Peacekeeping Force that was destroyed by terrorists in Lebanon tells his story for the first time Together these suicide bombings comprised the largest nonnuclear explosion ever recorded and are now recognized as a seminal event leading to the current war on terrorism Such acts of war revealed a new highly effective tactic which complemented the terrorist s strategic goals the withdrawal of the peacekeepers and Western influence from Lebanon and a change in U S policy *Peacekeepers at War* lays out in detail a sequence of events leading up to the suicide truck bombings from which one can extrapolate the rationale motives and perpetrators behind it Geraghty argues that the absence of any retribution against the perpetrators emboldened the terrorists to assume they could

attack Americans and Western interests with impunity This led to kidnappings torture and the murders of Americans and other Westerners Peacekeepers at War will be of interest to general readers who want to learn more about this seminal event and its effects on the current global war on terrorism *The Ambivalence of the Sacred* Scott R. Appleby,2000 This text

explains what religious terrorists and religious peacemakers share in common and what causes them to take different paths in fighting injustice **A New Understanding of Terrorism** M.R. Haberfeld,Agostino Hassell,2009-07-09 Terrorism is a complex phenomenon that cannot be understood through reading of a number of unrelated academic articles or a dry overview of the history of terrorism or the investigative techniques For A New Understanding of Terrorism the Editors have chosen a different paradigm They have selected numerous case studies from actual events that illustrate various typologies of terrorist actions be it from a separatist nationalist lone wolf individual terrorist religious fanatics or environmentalist orientation and they present these cases within the context of following the trajectories of the terrorist activity the terrorist act itself and the response to the event from the relevant authorities Some chapters concentrate on terrorist attacks that actually took place others speculate about the possibilities of an attack occurring sometime in the future such as the chapters on the Olympic Games Aviation or Rail Security When possibilities rather than a specific event are discussed the authors of these chapters draw the attention of the reader towards the same direction the reasoning the actual event and the response that followed The thorough analysis of the presented case studies and the applied counter measures will hopefully if not curtail then possibly at least mitigate the operational and ideological strength of terrorist groups or individual actors A New Understanding of Terrorism will enable the reader to make the connection between the emotional charge inherent in any terrorist activity the cold blooded tactics that lead to the terrorist event itself and the pragmatic and very straightforward but at the same time very simplistically designed strategic response that has to come from a synergy between academics military and law enforcement brainstorming design in order to be more effective in the future ABOUT THE EDITORS M R Maki Haberfeld is a Professor of Police Science at John Jay College of Criminal Justice in New York City She has worked for the U S Drug Enforcement Administration in the New York Field Office as a special consultant Prior to that she has served in a counter terrorist unit in the Israeli Defense Forces and she left the army at the rank of Sergeant She was also a lieutenant in the Israel National Police For the past eight years Dr Haberfeld has been involved in developing coordinating and teaching in a special training program for the New York City Police Department where she teaches courses in police ethics leadership and counter terrorism She was also an Academic Coordinator of the Law Enforcement Executive Police Institute for the State of New York where she taught modules on counter terrorism response Agostino von Hassell is the president of The Repton Group LLC a New York City based consulting group that deals mostly with national security issues He has written numerous political and historical articles and is the author of two major military histories Warriors The United States Marine Corps and Strike Force Marine Corps Special Operations In 2003 he published a pictorial portrait of the United States In Honor of

America He has taught as an adjunct professor in the graduate program of John Jay College of Criminal Justice in New York teaching members of the New York City Police Department in subjects such as counter terrorism and leadership He is a life member of the United States Marine Corps Combat Correspondents the National Defense Industry Association the Association of Former Intelligence Officers and the Authors Guild The Rise of US Military Legalism Doyle K.

Hodges,2025-11-25 This book introduces and explains the concept of military legalism and analyzes its importance for US military decision making The book documents a change over the past 50 years in the way in which US military officers make decisions about using force which it calls military legalism Rather than relying solely on professional military judgment and professional military ethics officers are increasingly using legal norms and reasoning to justify their choices This book explores how widespread this practice has become explains why it has emerged and examines some of its implications Using historical cases from World War II through the opening days of Operation Iraqi Freedom the book traces changes in the way in which civilian policymakers have governed US military decisions about the use of force and how the military has responded to these changes While military legalism is normatively neither good nor bad legalistic reasoning has been used to justify morally deficient policies and a reliance on legal reasoning may have unanticipated and unexamined effects on the norms of civil military relations This book will be of interest to students of law military studies ethics and International Relations **Reflections in a Bloodshot Lens** Lawrence Pintak,2006-01-20 There exists today a tragic rift between

Americans and the world s Muslims Yet in the immediate aftermath of 9 11 there was widespread sympathy for the US throughout the Muslim world This book explores what happened It examines the disconnect that leads Americans and Muslims to view the same words and images in fundamentally different ways Partly a result of a centuries old us against them dichotomy the problem is exacerbated by an increasingly polarised media and by leaders on both sides who either don t understand or don t care what impact their words and policies have in the world at large Reflections in a Bloodshot Lens argues that the Arab media revolution and the rise of patriot journalists in the US marginalised voices of moderation distorting perceptions on both sides of the divide with potentially disastrous results The Middle East ,1989 Urban

Unrest in the Middle East Guilan Denoeux,1993-08-20 This book offers a systematic examination of the politics of Middle Eastern cities in a broad historical and comparative context Focusing on the contribution of informal networks the author examines four types He reveals that contrary to recent claims informal associations do not necessarily play a stabilizing role in urban politics but reveal themselves to be effective instruments for mobilizing popular dissent Denoeux identifies conditions under which these informal urban networks can change their role from system supportive to system challenging His analysis highlights the impact of Islam on contemporary forms of urban violence in the Middle East and emphasizes the destabilizing potential for the urban poor His approach sheds new light on the politics of Islamic fundamentalism and on the nature of urban unrest in a vital yet neglected region of the world and represents a very significant contribution to an

emerging literature on informal political processes
