Tomlinson, 2016-04-08 Basic income is an innovative powerful egalitarian response to widening global inequalities and poverty experiences in society one that runs counter to the neoliberal transformations of modern welfare states social security and labor market programs. This book is the first collective volume of its kind to ask whether a basic income offers a viable solution to the income support systems in Australia and New Zealand. Though often neglected in discussions of basic income both countries are advanced liberal democracies dominated by neoliberal transformations of the welfare state and therefore have great potential to advance debates on the topic. The contributors' essays and case studies explore the historical

basis on which a basic income program might stand in these two countries the ideological nuances and complexities of implementing such a policy and ideas for future development that might allow the program to be put into practice regionally and applied internationally **Advancing Broadband** ,2011 NOTE NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT OVERSTOCK SALE Significantly reduced list price Discusses the Broadband Initiatives Program for rural areas Utility workers especially broadband provider workers and citizens residing in America s rural communities may be interested in this resource Related products Information Centric Warfare can be found here https://bookstore.gpo.gov/products/sku/008_000_00965_1 Convergence Illicit Networks and National Security in the Age of Globalization can be found here https://bookstore.gpo.gov/search/apachesolr_search/Convergence YouTube War Fighting in a World of Cameras in Every Cell Phone and Photoshop on Every Corner can be found here https://bookstore.gpo.gov/products/sku/008_000_01071_4
