Book of Mormon Shell Abegglen, 2012-10. BOOK OF MORMON THE BIGGER PICTURE isn't just a simple synopsis of stories from the Book of Mormon supplemented by interesting commentaries but in the bigger scheme of things it shows a much bigger picture of the Book of Mormon filled with an array of aids to help us reach a better overall understanding of the Book of Mormon and pique our interest in this important book of scripture. It includes fascinating sidebars on the Hill Cumorah on historical metal plates from ancient civilizations on age old Middle Eastern cultural oddities and the fascinating Semitic linguistics that Joseph Smith couldn't possibly have been familiar with. It also contains pertinent special quotes from Joseph Smith Oliver Cowdery Parley P Pratt as well as many of our modern day prophets and even Abraham Lincoln. It continually points out the many evidences that preclude Joseph Smith having fabricated this special Book.

The Big Questions Made Easy Doug Zimmer, 2016-02-05. This book uses plain easy to understand logic to answer some of life's big questions: Does God exist? Does He have a physical body? Is the Godhead one or three individuals? What is the purpose of life? Why do bad things happen to good people? Do we have free will or does destiny determine our lives? The author has spent a lifetime searching for these answers in both secular and scriptural sources. Although one cannot prove for instance that God does or does not exist, this text will make it easier for you to formulate your own conclusions using circumstantial evidence and logical reasoning. Please set aside passions, hearsay, and assumptions to engage your mind in contemplating these questions with me. I do not believe that you will find an easier path to finding answers than this book provides.

Of Faith and Reason: 80 Evidences Supporting Joseph Smith Michael R. Ash, 2023-02-02. In the early 1800s many people criticized the Prophet Joseph Smith for his prophecies and revelations; today several evidences prove that Joseph was right. Michael Ash, a well known LDS apologist, explains why it is useful and perhaps even necessary to combine reason with faith in our testimony of Joseph Smith. He reminds us that although secular evidences can't replace a spiritual witness, they can support a testimony and provide an atmosphere where a spiritual witness can flourish. Using scholarly journal articles and ancient Jewish and Christian writings, Ash provides evidences that show how the Book of Mormon is a true account of an ancient people, how LDS scriptures are consistent with the traditions and culture of ancient Israel, and how the doctrines of the Church accurately reflect the teachings of Christ. Ash writes clearly and simply, providing numerous resources to foster further study. With over 80 evidences, this book is an excellent resource for those seeking more information about Joseph Smith and his works.

Biblical And Non-biblical Evidences For The Book Of Mormon Joseph Dean DeBarthe, 2018-08-29. What about the Book of Mormon? That it is a controversial book cannot be denied. Many do not accept it as scripture. They believe that Joseph Smith Jr wrote it. They also believe that the Bible is the only scripture ever written but nowhere does the Bible make that claim. This belief is not biblical. In fact, just the opposite is true.

The Bible testifies to the existence of other written scriptures and specifically a second scripture written about the tribe of Joseph Ezekiel 37 19 This Joseph is the same Joseph of the coat of many colors the same Joseph sold into slavery in Egypt and the same Joseph that saved Egypt and all of the tribes of Israel from the seven year famine that occurred Due to his lack of knowledge and education if Joseph Smith Jr had written The Book of Mormon it would have been disproven years ago Instead as time passes more and more of it is proven to be correct Joseph Smith could not have written it for many reasons not the least of which is the fact that he was a barely literate man He knew very little of the scriptures and no Hebrew at all Yet The Book of Mormon is clearly written by highly educated men with a strong background in Hebrew customs and writing techniques none of which were known by any American in the 1800s More information on this subject will be explored within this book This book was begun by direction of the Holy Spirit and written to the entire body of Christ Some might ask why they should read it Some will read it to try to refute it others will read it to learn and still others will use it to further their own agendas However you should read it and pray over it asking God through His Holy Spirit to give you a witness as to its validity We need direction from the Holy Spirit because we are always vulnerable to error Even prophets can be deceived 2 Chronicles Chapter 18 Satan will do anything he can to prevent us from gaining unity in our fight against him For years he has used the divide and conquer plan and we have fallen prey to it It is time we stop fighting over our petty differences and start working together for the salvation of all mankind The harvest is plentiful it is time to bring it in and we can do it With the help of God through His Son Jesus Christ and His Holy Spirit we can accomplish what would otherwise be impossible on our own
