All Is True The Claims And Strategies Of Realist Fiction:

All is True Lilian R. Furst, 1995 All is true realist writers would say of their work to which critics now respond All is art and artifice Offering a new approach to reading nineteenth century realist fiction Lilian R Furst seeks to reconcile these contradictory claims In doing so she clarifies the deceptions appropriations intentions and ultimately the power of literary realism In close textual analyses of works ranging across European and American literature including paradigmatic texts by Balzac Flaubert George Eliot Zola Henry James and Thomas Mann Furst shows how the handling of time the presentation of place and certain narrational strategies have served the realists claim She demonstrates how readers today like those a hundred years ago are convinced of the authenticity of the created illusion by such means as framing voice perspective and the slippage from metonymy to metaphor Further Furst reveals the pains the realists took to conceal these devices and thus to protect their claim to be employing a simple form Taking into account both the claims and the covert strategies of these writers All Is True puts forward an alternative to the conventional polarized reading of the realist text which emerges here as neither strictly an imitation of an extraneous model nor simply a web of words but a brilliantly complex imbrication of the two A major statement on one of the most enduring forms in cultural history this book promises to alter not only our view of realist fiction but our understanding of how we read it *Minding the Gap* Thom Conroy, Gail Pittaway, 2015-10-13

Passengers on the British railway and underground must mind the gap because it's dangerous not to In a state of embarking or disembarking passengers must stay aware of the small but significant space separating the stationary from the moving The contemporary practices of writing and reading are in constant motion and the phrase mind the gap captures an essential aspect of the way language and literature progress as they pass through any number of social technical and political exchanges Minding the gap also suggests an awareness of the always shifting distance between the expected and the unexpected the ordinary and the impossible the familiar and the unimagined This book includes chapters on writing non fiction media and genre and also addresses elements of identity culture and linguistics in fiction poetry and creative non fiction as contributors consider the gaps that exist between the self as writer as reader and as editor or mentor The volume adopts the following key themes new gaps for creative writing in the academy writing in new genres media and forms exploring the creative process and narrative strategies across disciplines This book will be of international appeal to all readers interested in the changing landscape of creative writing EbscoHost

Ignorance Andrew Bennett, 2013-07-19 Andrew Bennett argues in this fascinating book that ignorance is part of the narrative and poetic force of literature and is an important aspect of its thematic focus ignorance is what literary texts are about He sees that the dominant conception of literature since the Romantic period involves an often unacknowledged engagement with the experience of not knowing From Wordsworth and Keats to George Eliot and Charles Dickens from Henry James to Joseph Conrad from Elizabeth Bowen to Philip Roth and Seamus Heaney writers have been fascinated and compelled by the question of ignorance including their own Bennett argues

that there is a politics and ethics as well as a poetics of ignorance literature's agnology its acknowledgement of the limits of what we know both of ourselves and of others engages with the possibility of democracy and the ethical and allows us to begin to conceive of what it might mean to be human This exciting approach to literary theory will be of interest to lecturers and students of literary theory and criticism

Widening Horizons Mohit Kumar Ray, Pradip Kumar Dey, 2005 Mohit K Ray b 1940 former Professor of English Burdwan University contributed articles *Salman Rushdie and Visual Culture* Ana Cristina Mendes, 2012-05-22 In Salman Rushdie's novels images are invested with the power to manipulate the plotline to stipulate actions from the characters to have sway over them seduce them or even lead them astray Salman Rushdie and Visual Culture sheds light on this largely unremarked even if central dimension of the work of a major contemporary writer This collection brings together for the first time and into a coherent whole research on the extensive interplay between the visible and the readable in Rushdie's fiction from one of the earliest novels *Midnight's Children* 1981 to his latest *The Enchantress of Florence* 2008 Negotiating the New in the French Novel Teresa Bridgeman, 2005-08-16 In *Negotiating the New in the French Novel* Teresa Bridgeman applies insights from pragmatic theory to the French novel in order to examine its discourse conventions Focussing on texts by some of the greatest and most innovative French novelists Diderot Balzac Flaubert Zola Celine Sarraute and Perec Bridgeman analyses how these authors established their own conventions challenged reader expectations and drew conventions from other literary and non literary forms *Negotiating the New in the French Novel* shows the development of changing perceptions of genre author and reader This book will make fascinating reading for students of French literature particularly of the nineteenth century novel students of Stylistics and of Narratology

Beginning Realism Steven Earnshaw, 2013-01-18 Realism is an essential concept in literary studies yet for a variety of reasons it has not received the attention and clarity it deserves often being dismissed as too slippery to be of use This accessible study remedies that failing for students and scholars of English Literature and Literary Theory alike plainly setting out what realism is the issues surrounding it and its role in other major literary modes such as modernism and postmodernism *Beginning Realism* gives detailed coverage of the nineteenth century realist novel through its focus on novels by Gaskell Eliot Trollope Dickens Mrs Oliphant Thackeray and Zola As well as discussing the novel the book also includes chapters on the use of realism in drama and poetry and a chapter on the language of realism another aspect often overlooked in analysis of the concept *Random Destinations* L. Furst, 2005-09-16 *Random Destinations* examines how novels and short stories portray those who managed to escape from Central Europe in the 1930s following the rise of Nazism They faced many concrete and psychological problems at their random destinations language acquisition adjustment to different moves fitting into the community coming to terms with having been rejected by their homeland the conflict between the desire to remember and or forget their past and above all the need to reshape their identities Their personal struggles are contextualized within their historical situation both global and specific to their new locale The book argues that fiction by

taking ordinary escapees difficulties into account paradoxically offers a more subtle and true picture than sociological studies that have tended to foreground the successes of a few outstanding individuals Responses to Modernity Joseph Frank, 2012 This book consists of essays and reviews that address social political and cultural issues which arose in connection with literature broadly conceived in the wake of the First World War and extending throughout the twentieth century The first portion of the volume concerns France with both essays on individual writers such as Paul Val ry Jacques Maritain Albert Camus Andr Malraux Jean Paul Sartre and Yves Bonnefoy and a piece on French intellectuals between the wars The second part concerns Germany and Romania with essays on Ernst Juenger Gottfried Benn Erich Kahler E M Cioran and others The volume concludes with essays on problems of literary criticism in dialogue with such critics as Gary Saul Morson Ian Watt T S Eliot and R P Blackmur These essays also discuss the history of the novel and the question of realism

George Eliot and Schiller Deborah Guth, 2016-07-22 Though Friedrich Schiller enjoyed prominent literary standing and great popularity in nineteenth century literary England his influence has been largely neglected in recent scholarship on the period First published in 2003 this book explores the substantial evidence of the importance of the playwright and philosopher s thought to George Eliot s novelistic art It demonstrates the relationship between Schiller s work and Eliot s plotting of moral vision the tensions in her work between realism and idealism and her aesthetics It also contends that the immense continental underpinnings of Eliot s writing should lead us to resituate her beyond national boundaries and view her as a major European as well as English writer This book will be of interest to those studying 19th Century English and European literature
