Legal Stories Gregory Steirer, 2024-07 Tracing the emergence of what the media industries today call transmedia story worlds and narrative franchises *Legal Stories* provides a dual history of copyright law and narrative based media development between the Copyright Act of 1909 and the Copyright Act of 1976 Drawing on archival material including legal case files and employing the principles of actor network theory Gregory Steirer demonstrates how the meaning and form of narrative based property in the twentieth century was integral to the letter and practice of intellectual property law during this time Steirer s expansive view of intellectual property law encompasses not only statutes and judicial opinions but also the everyday practices and productions of authors editors fans and other legal laypersons The result is a history of the law as improvisatory and accident prone taking place as often outside the courtroom as inside and shaped as much by laypersons as lawyers Through the examination of influential legal disputes involving early properties such as Dashiell Hammett s Sam Spade H P Lovecraft s Cthulhu Mythos and Robert E Howard s Conan the Barbarian Steirer provides a ground s eye view of how copyright law has operated and evolved in practice

As If Michael Saler, 2012-01-09 Many people throughout the world inhabit imaginary worlds communally and persistently parsing Harry Potter and exploring online universes These activities might seem irresponsibly escapist but history tells another story Beginning in the late nineteenth century when Sherlock Holmes became the world s first virtual reality character readers began to colonize imaginary worlds debating serious issues and viewing reality in provisional as if terms rather than through essentialist just so perspectives From Lovecraft s Cthulhu Mythos and Tolkien s Middle earth to the World of Warcraft and Second Life *As If* provides a cultural history that reveals how we can remain enchanted but not deluded in an age where fantasy and reality increasingly intertwine
