Allah Transcendent The Philosophers God In Medieval Islam:

Allah Transcendent Ian Richard Netton, 2013-01-11 Examines the role of God in medieval Islamic philosophy and theology in a new and exciting way Renouncing the traditional chronological method of considering Islamic philosophy Netton uses modern literary modes of criticism derived from structuralism post structuralism and semiotics The Biographical Encyclopedia of Islamic Philosophy Oliver Leaman, 2015-07-16 Philosophy flourished in the Islamic world for many centuries and continues to be a significant feature of cultural life today Now available in paperback The Biographical Encyclopedia of Islamic Philosophy covers all the major and many minor philosophers theologians and mystics who contributed to its development With entries on over 300 thinkers and key concepts in Islamic philosophy this updated landmark work also includes a timeline glossary and detailed bibliography It goes beyond philosophy to reference all kinds of theoretical inquiry which were often linked with philosophy such as the Islamic sciences grammar theology law and traditions Every major school of thought from classical Peripatetic philosophy to Sufi mysticism is represented and entries range across time from the early years of the faith to the modern period Featuring an international group of authors from South East Asia the Indian Subcontinent the Middle East and North Africa Europe and North America The Biographical Encyclopedia of Islamic Philosophy provides access to the ideas and people comprising almost 1400 years of Islamic philosophical tradition *An Introduction to Islam* Frederick Denny, 2015-09-21 An Introduction to Islam Fourth Edition provides students with a thorough unified and topical introduction to the global religious community of Islam In addition the author s extensive field work experience and scholarship combined with his engaging writing style and passion for the subject also sets his text apart An Introduction to Islam places Islam within a cultural political social and religious context and examines its connections with Judeo Christian morals Its integration of the doctrinal and devotional elements of Islam enables readers to see how Muslims think and live engendering understanding and breaking down stereotypes This text also reviews pre Islamic history so readers can see how Islam developed historically Medieval Philosophy and the Classical Tradition John Inglis, 2005-10-09 An initial chapter on the history of Islamic philosophy sets the stage for sixteen articles on issues across the three traditions The goal is to see the Islamic tradition in its own richness and complexity as the context of most Jewish intellectual work *The Cambridge Companion to Classical Islamic Theology* Timothy Winter, 2008-05-22 Devoting especial attention to questions of rationality scriptural fidelity and the construction of orthodoxy this volume introduces key Muslim theories of revelation creation ethics scriptural interpretation law mysticism and eschatology The treatment is firmly set in the historical social and political context in which Islam s distinctive understanding of God evolved The Misty Land of Ideas and The Light of Dialogue Ali Paya, 2013-11-12 Comparative philosophy like other types of philosophy is a sort of dialogue among philosophers But whereas dialogue among philosophers in the traditional branches of philosophy is usually in the form of duologue in comparative philosophy three interlocutors are involved Participants in a dialogue of the type which is common

in comparative philosophy need not be contemporaneous Nor do they need to speak the same language or belong to the same tradition Of the three interlocutors in a dialogue of the type relevant to comparative philosophy the one who plays the role of the go between among the other two is the true practitioner of comparative philosophy or to coin a term the true comparative philosopher i e the one who is actually engaged in the process of comparing philosophies and reflecting upon the finesse of the art of comparison of views The comparative philosopher is an interpreter a commentator a critic a connoisseur of good philosophical arguments and interesting ideas an educator and a communicator This last characteristic pertains to the role the comparative philosopher plays vis vis contemporary and future audiences

The Quran and the Secular Mind Shabbir Akhtar, 2007-10-31 This book is concerned with the rationality and plausibility of the Muslim faith and the Qur'an and in particular how they can be interrogated and understood through Western analytical philosophy It also explores how Islam can successfully engage with the challenges posed by secular thinking The Quran and the Secular Mind will be of interest to students and scholars of Islamic philosophy philosophy of religion Middle East studies and political Islam

Islamic Philosophy Oliver Leaman, 2013-05-03 Although Islamic philosophy represents one of the leading philosophical traditions in the world it has only recently begun to receive the attention it deserves in the non Islamic world This important text provides a concise and accessible introduction to the major movements thinkers and concepts within that tradition from the foundation of Islam to the present day Ever since the growth of Islam as a religious and political movement Muslim thinkers have sought to understand the theoretical aspects of their faith by using philosophical concepts Leaman outlines this history and demonstrates that although the development of Islamic philosophy is closely linked with Islam itself its form is not essentially connected to any particular religion and its leading ideas and arguments are of general philosophical significance The author illustrates the importance of Islamic thought within philosophy through the use of many modern examples He describes and contrasts the three main movements in Islamic philosophy Peripatetic Sufi and Illuminationist and examines the Persian as well as the Arabic traditions Wide coverage is given to key aspects of Islamic philosophy including epistemology ontology politics ethics and philosophy of language providing readers with a balanced view of the discipline The second edition has been thoroughly revised and updated throughout including the addition of two new chapters on recent debates surrounding Islam's need for an enlightenment and on the future of Islamic philosophy The new edition of Islamic Philosophy will continue to be essential reading for students and scholars of the subject as well as anyone wanting to learn more about one of the most significant and influential philosophical traditions in the world today
