The First 20 Hours Josh Kaufman, 2014-05-27 What if it's possible to learn the basics of any new skill in 20 hours or less? Research suggests it takes 10 000 hours to master a new skill and the earliest hours are always the most frustrating. That's why it's so difficult to learn a new language, play an instrument, hit a golf ball or shoot great photos. Josh Kaufman offers a better way. His systematic approach to rapid skill acquisition shows you how to deconstruct complex skills, maximize productive practice and remove common learning barriers. By completing just 20 hours of focused deliberate practice, you can pick up the basics in record time and have more fun along the way.

This new era brings chances, problems and new ideas. These changes affect our lives, jobs and society. The book 'New Era' looks at this changing time. It gives insight into human progress. It covers AI, green tech and new social ideas. It shows how these changes impact who we are and the future of work. New era is about more than just new tech. It is about how to think to guide the future. It looks at where we are and where we could go. It encourages talks and action during this unsure time. The book asks you to think about your role in the future. It asks you to welcome change. It asks you to see chances that come when we plan for progress. New Age Capitalism Kimberly J. Lau, 2015-11-10 The pursuit of health and wellness has become a fundamental and familiar part of everyday life in America. We are surrounded by an enticing world of products, practices and promotions assuring health and happiness. Cereal boxes claim that their contents can reduce the risk of heart disease. Bars of aromatherapy soap seek to wash away our stresses. Newspapers celebrate the wonders of the latest superfoods and herbal remedies. No longer confined to the domain of Western medicine, suggestions for healthy living often turn to alternatives originating in distant times and places in cultures very different from our own. Diets from ancient or remote groups are presented as cures for everything from colds to cancer. Exercise regimens based on Eastern philosophies are heralded as paths to physical health and spiritual wellbeing. In *New Age Capitalism*, Kimberly Lau examines the

ideological work that has created this billion dollar business and allowed Eastern and other non Western traditions to be coopted by Western capitalism Extending the orientalist logic to the business of health and wellness American companies have created a lucrative and competitive market for their products encouraging consumers to believe that they are making the right choices for personal as well as planetary health In reality alternative health practices have been commodified for an American public longing not only for health and wellness but also for authenticity tradition and a connection to the cultures of an imagined Edenic past Although consumers might prefer to buy into authentic non Western therapies New Age Capitalism argues that the market economy makes this goal unattainable **The New Experience of the Supersensible**
