Dawe, R. Barraclough and N. Siles, This book outlines everything you absolutely need to know about being healthy in the modern world Your environmental knowledge needs to love with the times your physical practice needs to work for contemporary humans with time constraints and both of these need to be held together by a healthy expansive but also practical psycho spiritual approach In this book you will not only find comprehensive knowledge on all three topics but a complete manual putting them all together in a practical fun and sustainable way This is the first book to actively weave these three components together and it ushers in a new wave of empowered powerful health regimes for anyone wanting to live in full health **How to Be Cross Eyed** Jonathan Roseland, 2019-01-01 There s that moment when you meet a new person and you can tell that they are just a bit disoriented by your weirdness You feel that familiar little pang of embarrassment and shame because you know how weird you must look to them You re physically imperfect So am I I know that moment as well as you do But you don t have to be cross eyed or have a conspicuous physical imperfection to enjoy this book Really thriving requires an uncommon set of barely legal Biohacking tools social dynamics strategies from the fringes of polite society and rapid mindset transformation technologies which this lifehacking manifesto delves deeply into This book is especially for that one or two percent of the population who have a glaring physical defect Which I fall into I m cross eyed

with Strabismus if you're reading this perhaps you are too. There are certainly people out there with more conspicuous physical imperfections who have it worse than I do. However, the eyes are the window to the soul; they really are a part of nearly every important human interaction. Not having normal eyes has been a disadvantage that I've needed to develop a specific set of skills and life strategies to overcome. I was talking to my lovely fiancée about this book and she asked me if the purpose of the book was to help the self-esteem of people with physical imperfections. Not really. This book is more about the lifehacks that I've employed over the past 10 years: strategies, methods, and tools that really work to help you overcome the challenge of a physical imperfection and thrive. These things will likely improve your self-esteem, but they will also work if you have low self-esteem or no self-esteem or too much self-esteem as I'm sometimes accused of having. Self-esteem is not my focus. My focus is on things that work. This is not your typical self-help book. I've had a pretty interesting life: I've seduced a politician's daughter in Medellín, Colombia, and I hung out with spies in Kyiv, Ukraine. I've almost died underwater twice. I participated in a bank robbery and I lost my virginity to a spy, yes, really. From having sex in a brand-new Maserati and getting in high-speed car chases to being deported from South American countries and representing the US Presidential candidate Donald J. Trump, I've found the happiness that I didn't give a damn about and realized my dream of becoming an adventuring philosopher. I'm not a theorist in the business of making generalizations. The tactics and tools presented here are for rigorous practitioners, ethical hedonists, and open-minded self-experimenters. I may sound like quite the pompous pontificator, but I'll offer no apologies because storytelling is the best way to impart the unconventional mindset that saved me from mediocrity and the biohacks that enabled me to defy my selfish genes. If you're bored of the tired problem-generalization-platitude-strategy-formula that most self-help books follow, you'll enjoy this memoir of adventures, failures, and unexpected successes across three continents. I'll share with you some powerful tools for transformation: biohacking, smart drugs, flowstate, red pill mindset, and more, with which I've managed to pack several lifetimes worth of peak experiences into a single decade.
