Trending Self Help:

Transnational Popular Psychology and the Global Self-Help Industry Daniel Nehring, Emmanuel Alvarado, Eric C. Hendriks, Dylan Kerrigan, 2016-04-08 Self help books aim to empower their readers and deliver happiness and personal fulfilment but do they really live up to this This book offers a fresh perspective on self help culture and popular psychology Research on this subject matter has generally focused on the USA and the Global Northwest In contrast this book explores the production circulation and consumption of self help books from an innovative transnational perspective Case studies on Trinidad Mexico the People s Republic of China the UK and the USA explore the roles which self help s therapeutic narratives of self and social relationships play in the contemporary world In this context the book questions the extent to which self help fulfils its promise of individual autonomy and contentment At the same time it addresses debates about contemporary political change under transnational processes of cultural standardization

Self-Help Books Sandra K. Dolby, 2010-10-01 Understanding instead of lamenting the popularity of self help books Based on a reading of more than three hundred self help books Sandra K Dolby examines this remarkably popular genre to define self help in a way that s compelling to academics and lay readers alike Self Help Books also offers an interpretation of why these books are so popular arguing that they continue the well established American penchant for self education they articulate problems of daily life and their supposed solutions and that they present their content in a form and style that is accessible rather than arcane Using tools associated with folklore studies Dolby then examines how the genre makes use of stories aphorisms and a worldview that is at once traditional and contemporary The overarching premise of the study is that self help books much like fairy tales take traditional materials especially stories and ideas and recast them into extended essays that people happily read think about try to apply and then set aside when a new embodiment of the genre comes along

Optimizing the Self Ole Jacob Madsen, 2015-06-19 This book provides an analysis of the social representations of leading self help genres including neurolinguistic programming cognitive self help therapy mindfulness self management self esteem self leadership and self control Exploring the globalised therapeutic culture of today the book argues that psychology as science is often abandoned to aid the individual pursuit for self realization and self optimization Opposing the view that self help culture is external to psychology Madsen argues that it is firmly embedded within psychology playing an important role in people s lives Each chapter traces and critically interprets a range of self help philosophies and techniques examining the claims of self help literature to represent the most innovative psychological medical or neurobiological research Discussing each genre in turn chapters examine key research alongside self help literature to explore the effectiveness and impact of leading self help genres in various social contexts and environments The book offers a contemporary critical overview of issues concerning self help combining critical psychology with the theory of social representation to provide a broad perspective on self help as a valid psychology Optimizing the Self will be of interest to academics researchers and postgraduate students in the fields of

social representation critical and cultural psychology and theory clinical psychology and the sociology of culture and science The book will also be of use to critical and cultural psychologists and theorists as well as clinical psychologists
