The Aldermen of the City of London Temp. Henry III.-1908 Alfred Beaven Beaven, 1908 **First Lady of Letters** Sheila L. Skemp, 2011-08-24 Judith Sargent Murray 1751 1820 poet essayist playwright and one of the most thoroughgoing advocates of women's rights in early America was as well known in her own day as Abigail Adams or Martha Washington Her name though has virtually disappeared from the public consciousness Thanks to the recent discovery of Murray's papers including some 2 500 personal letters historian Sheila L Skemp has documented the compelling story of this talented and most unusual eighteenth century woman Born in Gloucester Massachusetts Murray moved to Boston in 1793 with her second husband Universalist minister John Murray There she became part of the city's literary scene Two of her plays were performed at Federal Street Theater making her the first American woman to have a play produced in Boston There as well she wrote and published her magnum opus *The Gleaner* a three volume miscellany that included poems essays and the novel like story *Margaretta* After 1800 Murray's output diminished and her hopes for literary renown faded Suffering from the backlash against women's rights that had begun to permeate American society struggling with economic difficulties and concerned about providing the best possible education for her daughter she devoted little time to writing But while her efforts diminished they never ceased Murray was determined to transcend the boundaries that limited women of her era and worked tirelessly to have women granted the same right to the pursuit of happiness immortalized in the Declaration of Independence She questioned the meaning of gender itself emphasizing the human qualities men and women shared arguing that the apparent distinctions were the consequence of nurture not nature Although she was disappointed in the results of her efforts Murray nevertheless left a rich intellectual and literary legacy in which she challenged the new nation to fulfill its promise of equality to all citizens *Securing the Commonwealth* Jennifer J. Baker, 2008-02-01 *Securing the Commonwealth* examines how eighteenth century American writers understood the highly speculative financial times in which they lived Spanning a century of cultural and literary life this study shows how the era's literature commonly depicted an American ethos of risk taking and borrowing as the peculiar product of New World daring and the exigencies of revolution and nation building Some of the century's most important writers including Cotton Mather Benjamin Franklin Royall Tyler Charles Brockden Brown and Judith Sargent Murray believed that economic and social commonwealth and one's commitment to that commonwealth might be grounded in indebtedness and financial insecurity These writers believed a cash poor colony or nation could not only advance itself through borrowing but also gain reputability each time it successfully paid off a loan Equally important they believed that debt could promote communality precarious public credit structures could exact popular commitment intricate financial networks could bind individuals to others and to their government and indebtedness itself could evoke sympathy for the suffering of others Close readings of their literary works reveal how these writers imagined that public life might be shaped by economic experience and how they understood the public life of literature itself Insecure

times strengthened their conviction that writing could be publicly serviceable persuading readers to invest in their government in their fellow Americans and in the idea of America itself

French, Jr., 2019-03-01 Horace King 1807 1885 built covered bridges over every large river in Georgia Alabama and eastern Mississippi That King who began life as a slave in Cheraw South Carolina received no formal training makes his story all the more remarkable This is the first major biography of the gifted architect and engineer who used his skills to transcend the limits of slavery and segregation and become a successful entrepreneur and builder John S Lupold and Thomas L French Jr add considerably to our knowledge of a man whose accomplishments demand wider recognition As a slave and then as a freedman King built bridges courthouses warehouses factories and houses in the three state area The authors separate legend from facts as they carefully document King s life in the Chattahoochee Valley on the Georgia Alabama border We learn about King s freedom from slavery in 1846 his reluctant support of the Confederacy and his two terms in Alabama s Reconstruction legislature In addition the biography reveals King s relationship with his fellow white contractors and investors especially John Godwin his master and business partner and Robert Jemison Jr the Alabama entrepreneur and legislator who helped secure King s freedom The story does not end with Horace however because he passed his skills on to his three sons who also became prominent builders and businessmen In King s world few other blacks had his opportunities

to excel King seized on his chances and became the most celebrated bridge builder in the Deep South The reader comes away from King s story with respect for the man insight into the problems of financing building and maintaining covered bridges and a new sense of how essential bridges were to the southern market economy The English Catalogue of Books ...: 1801-1836.
