Behavioral Interviewing Guide A Practical Structured Approach For Conducting Effective Selection Interviews:

Behavioral Interview Guide Tom S. Turner, 2004 Is your organization using the most effective type of interviewing in your hiring and promotional processes Selection research results indicate that the most valid type of interview to use is a structured behavioral interview that is focused on the success related knowledge skills and personal qualities Behavioral Interviewing Guide provides you with a practical step by step approach for planning conducting and evaluating a structured behavioral interview Some of the many supporting documents guides and techniques included in the book are Selection criteria definitions Twenty five pages of categorized behavioral questions Generic interview guides for both management and non management positions Self assessment quiz and Generic behavioural background reference check guide By using the practices and techniques presented in the Behavioral Interview Guide you will hire or promote good performers more often Is it worth it You bet Selection research studies indicate good workers can do twice as much work as poor workers In addition each year a good worker is with an organization they contribute a monetary value equivalent in the range of 70% to 140% of their annual salary Bad decisions equipment material damage accidents and replacement hiring fees are just some of the substantial costs associated with hiring or promoting poor workers The behavioral interview is based on the practical assumption that a person s past behavior will predict their future behavior If a person has demonstrated strong initiative work standards ability to learn judgment flexibility honesty attendance etc in past positions they will in all probability continue to show the same behavior in future positions The Behavioral Interview Guide provides you with hundreds of good behavioral questions to choose from and explains the necessary structure and steps to ensure interview success *Choosing Leaders and Choosing to Lead* Douglas Board, 2016-05-23 Some of the worst selection practices to be found anywhere can be found at the top of organisations Even when senior selection is not egregiously bad rarely is it as good as it could be Front line staff and middle managers are selected with much more rigour today than 30 years ago but not the chairmen chief executives and chief officers who lead them So says Douglas Board in *Choosing Leaders and Choosing to Lead* Dr Board draws on his extensive experience in executive search and in leadership coupled with his own academic research embracing the sociology and psychology of scholars such as Pierre Bourdieu and Karl Weick to offer ground breaking insight into the value and limitations of established selection practice This book illuminates ways in which senior roles differ from other positions and will help those charged with selecting individuals for senior positions as well as potential candidates those concerned with regulating selection policy and researchers Examining the classic mix of competency frameworks and selection tools such as psychological and skills assessments simulations reference checking and interviews the author concludes that senior selection choices are holding back organisations and individual careers with implications for diversity effectiveness and social justice He contends that while complacent self regarding elites will always need vigilant challenge the scientific approach to selection has weaknesses as well as strengths Those weaknesses become more pronounced at

senior levels posing particular questions about amongst other things the role of intuition and politics
