Behind The Myth Of European Union Prospects For Cohesion:

Behind the Myth of European Union Ash Amin, John Tomaney, 2002-06-01 The vision of the original architects of the European Community was to create a Europe of economic prosperity and social harmony Economic integration has come ever closer but sustained growth and a reduction in social disparities seen as far away as ever This book examines the prospects for the real cohesion in Europe and find that far from promoting it many of the Community's current policies are divisive The neo liberal philosophy at the moment is producing policies which favour relatively wealthy regions and major corporations at the expense of less favoured regions and peoples *The Coherence of EU Regional Policy* John Bachtler, Ivan Turok, 2013-12-16 This book brings together a rich selection of up to date practical experience of EU regional policy from across Europe It provides different perspectives on the design and operation of regional development strategies under the Structural Funds from people closely involved in studying managing or advising on the process at EU national and regional levels It therefore offers a more comprehensive and detailed understanding of the structural policies than has been available hitherto This will prove particularly useful to researchers practitioners and students interested in European regional policies and processes

Behind the Illiberal Turn: Values in Central Europe, 2022-06-20 We have to abandon liberal methods and principles of organizing a society The new state that we are building is an illiberal state a non liberal state Hungarian Prime Minister Victor Orban famously said in 2014 exemplifying a broader trend taking place in Central Europe Why would the countries that were praised as democratization and Europeanization success stories take an illiberal turn This volume explores changing values and attitudes to explain events that took place in the aftermath of the financial and migration crisis in six Central European countries Croatia Czechia Hungary Poland Slovakia and Slovenia The European Union Chris Rumford, 2008-04-15 The European Union is the first full length treatment of European integration from a sociological perspective It redirects the core concerns of political sociology away from nationally bounded societies towards a sociology beyond societies capable of making a valuable contribution to thinking about the nature and problems of the European Union Within this broad objective the book concerns itself with such key issues as the relation between the EU and globalization the nature of the EU state and the question of whether a European society can be said to exist Students scholars and sociologists interested in the history development and legacies of the European Union will find this to be a unique and informative text

The European Union and Global Capitalism Magnus Ryner, Alan Cafruny, 2016-12-16 This book draws on critical theory to introduce readers to ways of exploring questions about the EU from a political economy perspective questions like Does the EU help or hinder Europe's social models to face the challenges of globalization Does the EU represent a break from Europe's imperial past What were the causes of the Eurozone crisis **The ^AOxford Handbook of Karl Marx** Matt Vidal, Tony Smith, Tomás Rotta, Paul Prew, 2019-03-26 The Oxford Handbook of Karl Marx provides an entry point for scholars and students new to Marxism At the same time its chapters written by leading Marxist scholars advance Marxist theory and

research Its coverage is more comprehensive than previous volumes on Marx in terms of both foundational concepts and state of the art empirical research on contemporary social problems It is also provides equal space to sociologists economists and political scientists with substantial contributions from philosophers historians and geographers The Politics of Insecurity Jef Huysmans,2006-09-27 The act of violence of 9 11 changed the global security agenda catapulting terrorism to the top of the agenda Weapons of mass destruction grabbed public interest and controlling the free movement of people became a national security priority In this volume Jef Huysmans critically engages with theoretical developments in international relations and security studies to develop a conceptual framework for studying security He argues that security policies and responses do not appear out of the blue but are part of a continuous and gradual process pre structured by previous developments He examines this process of securitization and explores how an issue on the basis of the distribution and administration of fear becomes a security policy Huysmans then applies this theory to provide a detailed analysis of migration asylum and refuge in the European Union This theoretically sophisticated yet accessible volume makes an important contribution to the study of security migration and European politics **Political Theory and the European Union** Michael Nentwich,Albert Weale,2003-09-02 The contributors to this book examine the issues of constitutional choice that face the governments and citizens of today s Europe Divided into three sections this study addresses questions of political legitimacy and the meaning of democratic deficit in the EU the reality of what institutional reforms and decision making processes are possible and the rights of citizenship and values that should be protected Multinationals and European Integration Nicholas A. Phelps,2013-10-18 This book examines the role of the multinational firms in processes of European integration It is primarily concerned with the implications of market integration and industrial restructuring for peripheral European regions Nicholas Phelps argues that because of the complex relationship between competition and economies of scale the persistence of market segmentation and because of the embeddedness of multinational investment in established production locations there is considerable inertia in the existing trade and investment patterns of multinationals in the EU This argument is explored empirically in relation to multinationals operating in Wales This study suggests that processes of restructuring accompanying market integration are slow to take effect and based on a diversity of motives *European Business* Debra Johnson,Colin Turner,2005-08-12 This book examines the major challenges facing European business in the formative years of the new millennium It focuses on the links between the processes of regional integration and globalization leading to a reappraisal of what enterprises and policy makers need to do to secure the competitiveness of the European economy in the early years of the twenty first century In addition to dealing with conventional EU policy areas such as EMU and competition policy the book also covers important issues such as small and medium sized enterprises and the information society which are often exclu
