Behind The Crumbling Edge A View Of The Nationalised Railway:

Behind the Crumbling Edge Stephen Poole, 2002 Stephen Poole joined British Rail in the early 1970s and worked on the railway in a variety of capacities for 20 years This gave him an insight not only into the internal complexities of the nationalised railway in its last two decades but also into the context in which it operated in terms of social industrial financial and political change In spite of occasional rivalries there was a shared sense of purpose and a camaraderie amongst railway workers and the author was clearly proud to be numbered amongst them However there was little room for such sentiments in the eventual helter skelter run up to privatisation The author portrays the reality of working for an industry struggling to survive and to adapt itself during a time of great upheaval showing too how political expediency and dogma encroached upon the real work of running a railway and resulted in the frustrations experienced by railway workers passengers and freight users alike British Railways in the 1970s and '80s Greg Morse, 2013-08-10 For British Rail the 1970s was a time of

contrasts when bad jokes about sandwiches and pork pies often belied real achievements like increasing computerisation and the arrival of the high speed Inter City 125s But while television advertisements told of an Age of the Train Monday morning misery continued for many the commuter experience steadily worsening as rolling stock aged and grew ever more uncomfortable Even when BR launched new electrification schemes and new suburban trains in the 1980s focus still fell on the problems that beset the Advanced Passenger Train whose ignominious end came under full media glare In British Railways in the 1970s and 80s Greg Morse guides us through a world of Traveller s Fare concrete concourses and peak capped porters a difficult period that began with the aftershock of Beeching but ended with BR becoming the first nationalised passenger network in the world to make a profit *The Railway Magazine* ,2003 **The British National**
