Behind The Curve

Joshua P. Howe

Behind The Curve:

Behind the Curve Joshua P. Howe, 2014-04-01 In 1958 Charles David Keeling began measuring the concentration of carbon dioxide in the earth's atmosphere at the Mauna Loa Observatory in Hawaii. His project kicked off a half century of research that has expanded our knowledge of climate change. Despite more than fifty years of research, however, our global society has yet to find real solutions to the problem of global warming. Why? In *Behind the Curve*, Joshua Howe attempts to answer this question. He explores the history of global warming from its roots as a scientific curiosity to its place at the center of international environmental politics. The book follows the story of rising CO₂ illustrated by the now famous Keeling Curve through a number of historical contexts, highlighting the relationships among scientists, environmentalists, and politicians as those relationships changed over time. The nature of the problem itself, Howe explains, has privileged scientists as the primary spokespeople for the global climate. But while the science-first forms of advocacy they developed to fight global warming produced more and better science, the primacy of science in global warming politics has failed to produce meaningful results. In fact, an often exclusive focus on science has left advocates for change vulnerable to political opposition and has limited much of the discussion to debates about the science itself. As a result, while we know much more about global warming than we did fifty years ago, CO₂ continues to rise. In 1958, Keeling first measured CO₂ at around 315 parts per million; by 2013, global CO₂ had soared to 400 ppm. The problem is not getting better; it's getting worse. *Behind the Curve* offers a critical and levelheaded look at how we got here.

How to Modify Your Loans Paul Stemborowski, 2009 Who can you turn to when you see financial troubles on the horizon? Who has experienced the effects of the law and its unintended consequences on you and your family? What bills should you deal with first to minimize the damage? Who can show you how to delay judgments and/or foreclosure without an attorney? Who can explain what steps you should take so you can plan for the worst? Who can show you the details of a bad loan sold to you by greedy mortgage companies? Paul Stemborowski is that person. Paul has spent the last ten years restructuring finances for thousands of people, helping them avert financial catastrophe. He has also helped thousands after they went bankrupt. In his attempt to solve every problem for everyone, he listened to all the stories in an attempt to learn from clients' past experience. The outcome was a person with the knowledge and negotiating skills everyone facing financial issues wanted to talk to.
