Wallinga, 2018-07-17 This book presents a new theory about the developments in shipping and naval organization that culminated in the invention around 530 BC in the eastern Mediterranean of the trireme and the subsequent adoption of this first specialized warship of antiquity by all the naval powers of the time New interpretations are proposed of Greek and Assyrian iconographic data and of hitherto ignored evidence in Herodotos and Thukydides the non military factors determining developments are emphasized Thukydides fundamental essay on the genesis of Greek sea powers is studied in depth the rarity of these sea powers stressed and the peculiar background of the naval power of Phokaia and the Samian tyrant Polykrates exposed The problem of the trireme s place of origin the factors determining its invention probably in Sa te Egypt and its immediate adoption by the Persian king

Thate,2019-10-04 If scholars no longer necessarily find the essence and origins of what came to be known as Christianity in the personality of a historical figure known as Jesus of Nazareth it nevertheless remains the case that the study of early Christianity is dominated by an assumption of the force of Jesus s personality on divergent communities In *The Godman and the Sea* Michael J Thate shifts the terms of this study by focusing on the Gospel of Mark which ends when Mary Magdalene Mary the mother of James and Salome discover a few days after the crucifixion that Jesus s tomb has been opened but the corpse is not there Unlike the other gospels Mark does not include the resurrection portraying instead loss puzzlement and despair in the face of the empty tomb Reading Mark s Gospel as an exemplary text Thate examines what he considers to be retellings of other traumatic experiences the stories of Jesus s exorcising demons out of a man and into a herd of swine his stilling of the storm and his walking on the water Drawing widely on a diverse set of resources that include the canon of western fiction classical literature the psychological study of trauma phenomenological philosophy the new materialism psychoanalytic theory poststructural philosophy and Hebrew Bible scholarship as well as the expected catalog of New Testament tools of biblical criticism in general and Markan scholarship in particular *The Godman and the Sea* is an experimental reading of the Gospel of Mark and the social force of the sea within its traumatized world More fundamentally however it attempts to position this reading as a story of trauma ecstasy and what has become through the ruins of past pain The Ten Thousand in Thrace Jan P. Stronk,2023-08-21 Since the *Anabasis* has been in continuous use as one of the main books for the introduction into classical Greek it is surprising that there are virtually no historical and or archaeological commentaries to the text Much of the training of students of the ancient world is focused on Greece and Rome and other Hochkulturen In Books VI iii vi and VII of the *Anabasis* the classical tradi tion illuminates one of the Randkulturen that of the Thracians This part of the *Anabasis* forms a time exposure of an important part of Thrace in 400 399 Impor tant developments both for Thrace and for the Greek world took place in this period and were described by an eyewitness The commentary is preceded by two introductory chapters one on the army of the Ten Thousand and one on Thrace These have been inserted because neither armies nor Thrace normally feature in the classical student s curriculum *Mediterranean Cities* Robert L. Hohlfelder,Irad Malkin,2015-12-22 First published in 1988 This is a collection of works where the Mediterranean provides the context for all the cities which appear in this volume all are or have been port cities and as such their harbours played a significant role in shaping their histories In essence the question of interaction between man and sea is one of the influence of the maritime

position on the human communities constituting the Mediterranean cities the connections between them and the link of each city with its hinterland as well as the influence of its position on the city's internal development and character
