Scotland's Second War of Independence, 1332-1357 Iain A. MacInnes, 2016 Full length study of the warfare between England and Scotland in the mid fourteenth century The Second Scottish War of Independence began in 1332 only four years after the previous conflict had ended Fought once more for the continued freedom of Scotland from English conquest the war also witnessed a revival of Scottish civil conflict as the Bruce Balliol fight for the Scottish crown recommenced once more Breaking out sporadically until peace was agreed in 1357 the Second Scottish War is a conflict that resides still in the shadow of that which preceded it compared to the wars of William Wallace and Robert Bruce Edward I and Edward II this second phase of Anglo Scottish warfare is neither well known nor well understood This book sets out to examine in detail the military campaigns of this period to uncover the histories of those who fought in the war and to analyse the behaviour of combatants from both sides during ongoing periods of both civil war and Anglo Scottish conflict It analyses contemporary records and literary evidence in order to reconstruct the history of this conflict and reconsiders current debates regarding the capabilities of the Scottish military the nature of contemporary combat the ambitions and abilities of fourteenth century military leaders and the place of chivalry on the medieval battlefield Dr Iain A MacInnes is a Lecturer and Programme Leader in Scottish History at the UHI Centre for History University of the Highlands and Islands

The Church at War: The Military Activities of Bishops, Abbots and Other Clergy in England, c. 900-1200 Daniel M. G. Gerrard, 2016-10-04 The fighting bishop or abbot is a familiar figure to medievalists and much of what is known of the military organization of England in this period is based on ecclesiastical evidence Unfortunately the fighting cleric has generally been regarded as merely a baron in clerical dress and has consequently fallen into the gap between military and ecclesiastical history This study addresses three main areas which clergy engaged in military activity in England why and when By what means did they do so And how did others understand and react to these activities The book shows that however vivid such characters as Odo of Bayeux might be in the historical imagination there was no archetypal militant prelate There was enormous variation in the character of the clergy that became involved in warfare their circumstances the means by which they pursued their military objectives and the way in which they were treated by contemporaries and described by chroniclers An appreciation of the individual fighting cleric must be both thematically broad and keenly aware of his context Such individuals cannot therefore be simply slotted into easy categories even or perhaps especially when those categories are informed by contemporary polemic The implications of this study for our understanding of clerical identity are considerable as the easy distinction between clerics acting in a secular or ecclesiastical capacity almost entirely breaks down and the legal structures of the period are shown to be almost as equivocal and idiosyncratic as the literary depictions The implications for military history are equally striking as

organisational structures are shown to be more temporary fluid and political than had previously been understood The Bastard's Sons Jeffrey James,2020-03-15 The first joint biography of the three sons of William the Conqueror They became kings crusaders and rulers of England and Normandy **Architectural History** ,2010 **Safe Sanctuaries** Christopher J. Brooke,2000 This text is about the fortified churches which form a feature of the borderlands between Scotland and England Through these buildings the author draws a picture of the people and events which shaped this land from the actions of government to events and incidents which shaped everyday lives **Studies in Medievalism** ,2001 **Annual Bibliography of British and Irish History** ,1999 The British National Bibliography Arthur James Wells,2000
