Conscious Consumerism Manual:

The ^AOxford Handbook of Political Consumerism Magnus Boström, Michele Micheletti, Peter Oosterveer, 2019-01-25

This volume offers the first comprehensive theoretical and comparative overview of the ways in which the market becomes a political arena. It maps the four major forms of political consumerism: boycotting, buycotting, spending to show support, and lifestyle politics, and discursive actions such as culture jamming. Chapters by leading scholars examine political consumerism in different locations and industry sectors and in consideration of environmental and human rights problems, political events, and the ethics of production and manufacturing practices.

The Routledge Handbook of Global Islam and Consumer Culture Birgit Krawietz, François Gauthier, 2024-09-16

The Routledge Handbook of Global Islam and Consumer Culture is an outstanding inter- and transdisciplinary reference source to key topics, problems, and debates in this challenging research field. The study of Islam is enriched by investigating religion and notably Islamic normativity, fiqh as a resource for product design, attitudes toward commodification and appropriated patterns of behavior. Comprising 35 chapters, including an extended Introduction by a team of international contributors from chairholders to advanced graduate students, the handbook is divided into seven parts: Guiding Frameworks of Understanding, Historical Probes, Urbanism and Consumption, Body Manipulation, Vestimentary Regimes, and Gender, Mediated Religion and Culture, Consumer Culture, Lifestyle and Senses of the Self through Consumption, Markets, These sections examine vibrant debates around consumption, frugality, Islamic jurisprudence and fatwas in the world economy, capitalism, neoliberalism, trade relations, halalization, labor, tourism, and travel infrastructure, body modification, fashion, self-fashioning, lifestylization, Islamic kitsch, urban regeneration, heritage, Islamic finance, the internet, and Quran recitation versus music. Contributions present selected case studies from countries across the world, including China, Indonesia, Malaysia, Morocco, Nigeria, Qatar, Pakistan, and Turkey. The handbook is essential reading for students and researchers in Islamic studies, Near and Middle Eastern studies, religious studies, and cultural studies. The handbook will also be very useful for those in related fields such as politics, area studies, sociology, anthropology, and history. Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) 4.0 license.

Handbook of Sustainable Textile Production Marion I. Tobler-Rohr, 2011-06-27

Textile products are produced, distributed, sold, and used worldwide. A quantitative assessment of sustainability in the textile manufacturing chain is therefore extremely important. The Handbook of Sustainable Textile Production is a compilation of technical, economical, and environmental data from the various processes in this chain. This authoritative reference work provides a detailed study of the sustainable development of textiles. The book opens with an introduction to the topic. Chapters define the principles of sustainability and its use in legislation and industry, before going on to investigate the impact of textiles throughout the supply chain, starting with the raw fibre, through to fabric production, consumption, and disposal. Textile process technology and methods for specifying quality and functions in textile

products in order to reduce textile waste and improve sustainability are also examined A series of Life Cycle Assessments LCAs carried out in the European textile industry are investigated These studies comprise a range of processes from cotton growing spinning and weaving to the recycling of textiles The book concludes with a discussion on sustainable textiles from a product development and marketing perspective With an internationally recognised expert author the Handbook of sustainable textile production is a valuable reference tool for academics and students as well as for companies across the textile supply chain concerned with developing a sustainable environment from fibre manufactures and designers to regulatory bodies A detailed quantitative assessment of the sustainable development of textiles Provides a useful compilation of technical economical and environmental data from various processes in the textile manufacturing chain Chapters define the principles of sustainability and its use in legislation and industry textile process technology the impact of textiles throughout the supply chain raw fibre through to fabric production consumption and disposal Handbook of Research on Sustainable Consumption and Production for Greener Economies Goel, Richa, Baral, Sukanta Kumar, 2023-06-27 Over the past 50 years one of the biggest worldwide concerns has been ensuring sustainable consumption and production patterns Growing interest in the circular economy model provides the chance to create system wide goals for all societies with economic financial and governance decision making as critical drivers and solutions The Handbook of Research on Sustainable Consumption and Production for Greener Economies examines the critical factors that can encourage sustainable consumption production patterns and a green economy The major barriers hindering consumers and producers from moving towards sustainable consumption sustainable consumption behavior and production patterns the green economy and more are explored Covering topics such as green economy sustainable consumption and resource management this book is ideal for government officials policymakers researchers academicians and more Handbook of Developments in Consumer Behaviour Victoria Wells, G.
