Building the Greatest Churches Since Pentecost Stan Coffey, 1988-01-01 Christianity and the Mass Media in America Quentin J. Schultze, 2005-11-09 The mass media and religious groups in America regularly argue about news bias sex and violence on television movie censorship advertiser boycotts broadcast and film content rating systems government regulation of the media the role of mass evangelism in a democracy and many other issues In the United States the major disputes between religion and the media usually have involved Christian churches or parachurch ministries on the one hand and the so called secular media on the other Often the Christian Right locks horns with supposedly liberal Eastern media elite and Hollywood entertainment companies When a major Protestant denomination calls for an economic boycott of Disney the resulting news reports suggest business as usual in the tensions between faith groups and media empires Schultze demonstrates how religion and the media in America have borrowed each other's rhetoric In the process they have also helped to keep each other honest pointing out respective foibles and pretensions Christian media have offered the public as well as religious tribes some of the best media criticism better than most of the media criticism produced by mainstream media themselves Meanwhile mainstream media have rightly taken particular churches to task for misdeeds as well as offered some surprisingly good depictions of religious life The tension between Christian groups and the media in America ultimately is a good thing that can serve the interest of democratic life As Alexis de Tocqueville discovered in the 1830s American Christianity can foster the habits of the heart that ward off the antisocial acids of radical individualism And as John Dewey argued a century later the media offer some of our best hopes for maintaining a public life in the face of the religious tribalism that can erode democracy from within Mainstream media and Christianity will always be at odds in a democracy That is exactly the way it should be for the good of each one Spiritual Principles Build New Testament Churches Robert Gee Witty, 1986 **Going for the Jugular** Walter B. Pentecostal-Charismatic Ecclesiology in the Public Sphere Christian Tsekpoe, Lord Elorm Donkor, 2024-09-05 Despite the current impressive numerical growth of Pentecostal Charismatic Christianity in Africa there remain some concerns about the extent to which the church is making the desired impact in the public space As the church grows numerically the African continent is ironically plagued with many regrettable stories of corruption bad governance sexual abuse gender discrimination and perversion environmental degradation robbery economic crisis leading to poverty and hunger wars and other social vices This paradoxical increase in vices alongside the demographic growth of the Christian population on the continent has caused many to question the social impact of African Christianity Re Visioning African Pentecostal Charismatic Ecclesiology in the Public Sphere is a response to these observations The contributors to this volume who are made up of seasoned academics theological educators and missiologists and mission practitioners have engaged the subject from multidisciplinary perspectives highlighting significant contributions of African Pentecostalism while pointing out critical areas for urgent attention The volume is intended to stimulate conversations around the church s mandate of influencing the public sphere as an agent of social transformation **Transmitting the Spirit in Missions** Amos Jimmy

Pentecostalism in general has been involved in the current growth mission and changing face of global Christianity. It argues that African Pentecostals particularly are an integral part of the global expansion of Christianity in this century. Specifically, this book engages the history and growth of the Church of Pentecost, an African Pentecostal denomination from Ghana, to demonstrate how African Pentecostals have taken their spirituality into their own hands and planted churches in their home country as well as other parts of the globe. The focus of this book is that African Pentecostals have achieved this feat through the experiential power and reliance of the Holy Spirit and the indigenous factor. The specific highlight is that this book is an updated analysis of the history, growth, and missions of the Church of Pentecost. Although this work is transformed from a PhD thesis, the content is presented accessibly to both the academia and general church populace, both pastors and the laity.
