All The Mooseall The Jaw:

In the Shadow of Detroit David Roberts, 2006 Roberts intertwines McGregor's corporate civic and personal lives to trace his pioneering role in the automobile industry. Some themes from McGregor's career that are considered here include company growth, the technical and cultural concept of the automobile, the impact of automotive transportation, technological reliance on Detroit, parent branch relations, the effects of border proximity, industrial and political lobbying, labor relations, secondary manufacturing, public involvement, and the Great War. In addition, Roberts probes McGregor's often subservient relationship with the enigmatic Henry Ford and examines how McGregor drew praise and political ire in calling for regional governance in the Border Cities opposite Detroit. In the years before his premature death, McGregor and his company dominated and defined the growing automotive industry in Windsor, Detroit, and their story deserves to be more widely known.

Prairie People Robert Collins, 2011-10-12 An intimate look at the people of the prairies in Manitoba, Saskatchewan, and Alberta: who they are, how they live, what makes them a breed apart. The prairies are Robert Collins's spiritual home. He was born and raised on a Saskatchewan farm but spent most of his adult life living elsewhere. Now he returns to his homeland to pay homage to the special character of the people who live in this unique region of Canada. *Prairie People* is an absorbing combination of stories, anecdotes, and touches of history told in the voices of ordinary people and linked by the author's own narrative and memories. It explores the characteristics that define these people to themselves and to the rest of Canada. Prairie people are clearly not all alike; city and town dwellers differ from farmers, farmers from ranchers, ranchers and cowboys from oilmen. But many of the stereotypes are true. They are defiantly pessimistic. They believe they are tougher than everybody else. They are uncommonly independent and self-reliant. In this sympathetic yet realistic portrait, Collins looks at where the original settlers of the prairies came from. He describes how nature shaped them and how hard work through good times and bad toughened them. He finds evidence of their legendary friendliness and neighbourliness. And he seeks to understand their deep attachment either to the left and right in politics and their unifying distrust of Central Canada.
