Day,2013-06-03 By examining the novels of critically and commercially successful authors such as Sarah Dessen Someone Like You Stephenie Meyer the Twilight series and Laurie Halse Anderson Speak Reading Like a Girl Narrative Intimacy in Contemporary American Young Adult Literature explores the use of narrative intimacy as a means of reflecting and reinforcing larger often contradictory cultural expectations regarding adolescent women interpersonal relationships and intimacy Reading Like a Girl explains the construction of narrator reader relationships in recent American novels written about adolescent women and marketed to adolescent women Sara K Day explains though that such levels of imagined friendship lead to contradictory cultural expectations for the young women so deeply obsessed with reading these novels Day coins the term narrative intimacy to refer to the implicit relationship between narrator and reader that depends on an imaginary disclosure and trust between the story s narrator and the reader Through critical examination the inherent contradictions between this enclosed imagined relationship and the real expectations for adolescent women s relations prove to be problematic In many novels for young women adolescent female narrators construct conceptions of the adolescent woman reader constructions that allow the narrator to understand the reader as a confidant a safe and appropriate location for disclosure At the same time such novels offer frequent warnings against the sort of unfettered confession the narrators perform Friendships are marked as potential

sites of betrayal and rejection Romantic relationships are presented as inherently threatening to physical and emotional health And so the narrator turns to the reader for an ally who cannot judge The reader in turn may come to depend upon narrative intimacy in order to vicariously explore her own understanding of human expression and bonds Feminism and Power Mary Caputi, 2013-05-16 Feminism and Power the Need for Critical Theory is a six chapter manuscript which offers an important critique of power feminism The latter having produced such spinoffs as grrrl power choice babe lipstick and stiletto feminisms encourages women to be strong self sufficient feisty and independent While I have no argument with much of that tough minded ideal I ask whether this brave new girl doesn't too readily acquiesce in a neo liberal ideology whose underlying tenets derive from American rugged individualism At its worst this strain within Third Wave feminism contains no critique of capitalism no distance on neoliberal theory no effort to address the injustices contained in globalization's asymmetries and the industrialized North's exploitation of developing countries Feminism and Power the Need for Critical Theory therefore argues that the critical theories of Theodor Adorno and Jacques Derrida have much to offer feminism and a feminist understanding of female empowerment Its pages rely on Adorno's assertion that it is only by allowing the sufferer to speak that we can unveil social truth rather than be duped by the bravado of victory culture Similarly it demonstrates how Derrida's insistence on the trace as well as the asymmetries of friendship and hospitality lead feminism away from the perils of contented triumphalism The book promotes listening as a paradigmatic feminist gesture rather than always speaking up and out
