Peasant Rebellion in a Slave Society Matthias Röhrig Assunção, 2024-07-11 Peasant Rebellion in a Slave Society identifies the immediate and remote reasons for the Balaiada revolt in Maranhão, Brazil, analyzing the special characteristics of the region that favored the development of a relatively independent peasantry within and around the cotton, rice, cassava, and cattle estates. The book explores the demography of Maranhão and patterns of land ownership and documents the rapid degradation of the environment by plantation-based export agriculture. The analysis of various types of coerced and free labor, the oligopolistic structure of the colonial economy, and the key determinants of class and status contextualizes the conflict potential in Maranhão during the first half of the nineteenth century. The People of Color, as they called themselves, and enslaved workers from plantations rose against a White and conservative elite, claiming their constitutional rights or their freedom. The central government in Rio de Janeiro had to dispatch considerable amounts of money and troops to defeat the insurrection and subject the province again to imperial rule, and enslaved workers and peasants to the plantocracy. This richly illustrated volume will be of interest to students and scholars working on slavery in the Americas and the Atlantic world, as well as Brazilian history.

Status in World Politics T. V. Paul, Deborah Welch Larson, William C. Wohlforth, 2014-04-07 Rising powers such as Brazil, China, India, Russia, and Turkey are increasingly claiming heightened profiles in international politics. Although differing in other respects, rising states have a strong desire for recognition and respect. This pioneering volume on status features contributions that develop propositions on status concerns and illustrate them with case studies and aggregate data analysis. Four cases are examined in depth: the United States, how it accommodates rising powers through hierarchy; Russia, the influence of status concerns on its foreign policy; China, how Beijing signals its status aspirations; and India, which has long sought major power status. The authors analyze status from a variety of theoretical perspectives and tackle questions such as: How do states signal their status claims? How are such signals perceived by the leading states? Will these status concerns lead to conflict, or is peaceful adjustment possible?

The Global Work of Art Caroline A. Jones, 2017-06-01 Global biennials have proliferated in the contemporary art world, but artists' engagement with large-scale international exhibitions has a much longer history that has influenced the present in important ways. Going back to the earliest world's fairs in the nineteenth century, this book argues that globalism was incubated in a century of international art contests and today constitutes an important tactic for artists. As world's fairs brought millions of attendees into contact with foreign cultures, products, and processes, artworks became juxtaposed in a theater of nations which challenged artists and critics to think outside their local academies. From Gustave Courbet's rebel pavilion near the official art exhibit at the 1855

French World's Fair to curator Beryl Madra's choice of London based Cypriot Hussein Chalayan for the off site Turkish pavilion at the 2006 Venice Biennale artists have used these exhibitions to reflect on contemporary art speak to their own governments back home and challenge the wider geopolitical realm changing art and art history along the way Ultimately Caroline A Jones argues the modern appetite for experience and event structures which were cultivated around the art at these earlier expositions have now come to constitute contemporary art itself producing encounters that transform the public and force us to reflect critically on the global condition **Brazil in the New Decade** Thomaz Guedes da Costa,2000

Global Environment of Policing Darren Palmer,Michael M. Berlin,Dilip K. Das,2012-06-05 Police organizations across the globe are experiencing major changes Many nations cope with funding constraints as pressures within their societies terrorism and transnational crime and social and political transformations necessitate a more democratic form of policing Drawn from the proceedings at the International Police Executive Symposium i **Comparative Federalism** Thomas O. Hueglin,Alan Fenna,2006-01-01 This is a thoughtful well organized review of a subject of ever increasing importance the resurgence of the federal idea The Honourable Bob Rae 21st Premier of Ontario
