Brazils National Alcohol Program:

Brazil's National Alcohol Program F. Joseph Demetrius, 1990-01-16 How are political systems likely to shape the choices uses and effects of technological progress This important new book addresses that question in a case study of Brazil s national alcohol program Proalcool Proalcool s stated goals are economic growth and the reduction of personal regional income disparities through the production of alcohol as a substitute for petroleum fuels used in internal combustion engines To better understand how Brazil s political system has shaped this technology the author investigates the program s actual social and economic consequences He concludes that the program is best understood as an agent and as a product of an authoritarian political regime and goes further to analyze its potential role in Brazil s nascent democracy Assessment of Brazil's National Alcohol Program Programa Nacional de Melhoramento da Cana-de-Açúcar (Brazil), 1981 Brazil Martha

Stancill, 1981 **Latin America And The U.S. National Interest** Margaret Daly Hayes, 2019-03-04 Arguing for a new and sober look at the nature of U S Latin American relations Dr Hayes addresses the question Does the United States have compelling national interests in maintaining close relations with Latin American countries Her conclusion is yes but for reasons different from those offered in the traditional literature or espoused by many policy analysts She maintains that U S interests in relations with Latin America are primarily political secondarily economic though economic ties are the basis of the relationship and only marginally military Proper emphasis on these long term interests may be critical to U S national security in a global as well as regional context Dr Hayes points out that the Latin American countries occupying a unique position among developing nations today because of their comparatively successful experiences in achieving economic growth and development represent an increasingly important political influence in both the developed and developing worlds Moreover she argues it is in the U S interest to give economic aid to the less developed countries in the hemisphere particularly in the Caribbean Basin U S security is better preserved and enhanced by encouraging political and economic stability in the region than by promoting military alliances that Latin Americans may not really want Supporting the need for a revised rationale for U S Latin American relations Dr Hayes focuses in detail on the regions and nations of special interest to the United States today the Caribbean Basin Mexico in a chapter by Professor Bruce M Bagley Brazil and the Southern Cone Fuels for the Future United States.
