

Writing Across the Curriculum Overview

The philosophies underlying these programs generally agree on certain basic principles:

- that writing **is the responsibility of the entire academic** community.
- that writing must be integrated across departmental boundaries.
- that writing instruction must be continuous during all years of post-secondary education.
- that writing **promotes learning**
- that only by practicing the conventions of an academic discipline will students begin to communicate effectively within that discipline

(WAC Clearinghouse, "Basic Principles of WAC", 1992).

Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
