What is Active Voice in English?

Active voice is a grammatical term used to describe a sentence in which the subject of the sentence performs the action. In other words, the subject is the doer of the action.

How to Identify Active Voice

Look for the subject of the sentence and the action it is performing. If our subject is performing the action, then the sentence is in active voice. If the subject is receiving the action, then the sentence is in passive voice.

For example:

- The ball was kicked by the boy. (passive voice)
- The boy kicked the ball. (active voice)

In the first sentence, the subject (**the ball**) is not doing the action; instead, it is receiving the action (**being kicked**) from the boy. In the second sentence, the subject (**the boy**) is doing the action (**kicking**) to the ball. Therefore, the second sentence is in active voice.
