Across The Frontier:

Land Conflicts Across Frontiers Reshmi Banerjee, 2018-11-12 Land Conflicts Across Frontiers compares Myanmar's journey with North East India on the critical and contested issue of land. It examines concerns related to land in pre colonial and colonial history, causes and consequences of land conflicts today, the socioeconomic dynamics attached to land along with attempted community based institutional interventions and rural activism. As Myanmar takes its steps towards a democratic future, it becomes critical for the country to be aware of North East India's experiences as they could provide valuable lessons of what to implement and what to avoid. Loss of common property resources, non recognition of customary rights, ambiguous land laws and inadequate attention to people's grievances have led to a rural landscape which has witnessed livelihood vulnerability, displacement and conflict. The book not only tries to capture cross border experiences in order to have a better understanding of land alienation, agrarian discontent and peripheral marginalization but also notes recent trends in rural spaces and suggests policy measures.

Fighters across frontiers Robert Gildea, 2020-11-05 This landmark book, the product of years of research by a team of two dozen historians, reveals that resistance to occupation by Nazi Germany and Fascist Italy during the Second World War was not narrowly delineated by country but startlingly international. Tens of thousands of fighters across Europe resisted transnationally, travelling to join networks far from their homes. These foreigners were often communists and Jews who were already being persecuted and on the move. Others were expatriate business people, escaped POWs, forced labourers or deserters. Their experiences would prove personally transformative and greatly affected the course of the conflict. From the International Brigades in Spain to the onset of the Cold War and the foundation of the state of Israel, they played a significant part in a period of upheaval and change during the long Second World War.

Mapping Frontiers Across Medieval Islam Travis Zadeh, 2017-02-28 The story of the 9th century caliphal mission from Baghdad to discover the legendary barrier against the apocalyptic nations of Gog and Magog mentioned in the Quran has been either dismissed as superstition or treated as historical fact. By exploring the intellectual and literary history surrounding the production and early reception of this adventure, Travis Zadeh traces the conceptualization of frontiers within early Abbasid society and re-evaluates the modern treatment of marvels and monsters inhabiting medieval Islamic descriptions of the world. Examining the roles of translation, descriptive geography and salvation history in the projection of early Abbasid imperial power, this book is essential for all those interested in Islamic studies, the Abbasid dynasty and its politics, geography, religion, Arabic and Persian literature and

European Orientalism **Frontiers of the European Union** M. Anderson, E. Bort, 2001-03-30 Based on original research this book is a unique attempt at a general assessment of EU frontiers Internal frontiers are losing some of their key functions but there are many responses to the new situation as a case study of French frontiers abundantly illustrates An examination of the EU external frontier shows that the EU is acquiring some state like features but the eastern frontier provides abundant evidence of the external frontier's complexity The authors conclude that the increasing openness of national frontiers will continue but their effective abolition whether by European integration or through globalization is improbable *Report by His Britannic Majesty's Government to the Trusteeship Council of the United Nations on the Administration of the Cameroons Under United Kingdom Trusteeship* Great Britain. Colonial Office, 1929 *Guarding the Frontier* Mark L. Stein, 2007-01-26
