1750 1950 Vol 2 People And Their Environment:

A Companion to Nineteenth-Century Britain Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading *The Narrative of the Good Death* Mary Riso, 2016-03-09 The Christian idea of a good death had its roots in the Middle Ages with ars moriendi featuring reliance on Jesus as Savior preparedness for the life to come and for any spiritual battle that might ensue when on the threshold of death and death not taking place in isolation Evangelicalism introduced new features to the good death with its focus on conversion sanctification and an intimate relationship with Jesus Scholarship focused on mid nineteenth century evangelical Nonconformist beliefs about death and the afterlife is sparse This book fills the gap contributing an understanding not only of death but of the history of Methodist and evangelical Nonconformist piety theology social background and literary expression in mid nineteenth century England A good death was as central to Methodism as conversion and holiness Analyzing over 1 200 obituaries Riso reveals that while the last words of the dying pointed to a timeless experience of hope in the life to come the obituaries reflect changing attitudes towards death and the afterlife among nineteenth century evangelical Nonconformist observers who looked increasingly to earthly existence for the fulfillment of hopes Exploring tensions in Nonconformist allegiance to both worldly and spiritual matters this book offers an invaluable contribution to death studies Methodism and Evangelical theology The Sources of Social Power Michael Mann, 1986 Distinguishing four sources of power in human societies ideological economic military and political The Sources of Social Power traces their interrelations throughout human history Volume 2 deals with power relations between the Industrial Revolution and the First World War Power and Politics at the Seaside Nigel Morgan, Annette Pritchard, 1999 Power and politics at the seaside opens by locating tourism within the wider leisure experience addressing the seaside holiday as a historical and sociological phenomenon It examines the ability of the local state to shape resort development through advertising facility provision and transport policies The book contests that politics and power relations are central to the development of the modern seaside resort Jacket **A New England?** Geoffrey Russell Searle, 2004 G R Searle's absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen's golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to terms with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the apogee of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the

other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under Professor Searle's historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Edward Carson take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England's great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster Unionists and the militant suffrage movement from Blackpool's tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886-1918 are brought into focus in this magisterial history THE NEW OXFORD HISTORY OF ENGLAND The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo-Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to be a set of standard and authoritative histories embodying the scholarship of a generation

The Greening of London, 1920-2000 Matti O. Hannikainen, 2017-05-15 The long term development of public green spaces such as parks public gardens and recreation grounds in London during the twentieth century is a curiously neglected subject despite the fact that various kinds of green spaces cover huge areas in cities in the UK today This book explores how and why public green spaces have been created and used in London and what actors have been involved in their evolution during the course of the twentieth century Building on case studies of the contemporary boroughs of Camden and Southwark and making use of a wealth of archival material the author takes us through the planning and creation stages to the intended and actual uses and ongoing management of the spaces By highlighting the rise and fall of municipal authorities and the impact of neo-liberalism after the 1970s the book also deepens our understanding of how London has been governed planned and ruled during the twentieth century It makes a crucial contribution to academic as well as political discourse on the history and present role of green space in sustainable cities

Exodus from Cardiganshire Kathryn J Cooper, 2011-06-15 Was migration from Victorian Cardiganshire simply a flight from rural poverty This book relates the rate and timing of the outward movements from the county to the prevailing social and economic conditions It provides insights into the factors involved in migration and using computer assisted analysis of census enumerators' books examines key dimensions of the communities at the major migrant destinations

The Cambridge Economic History of Modern Britain Roderick Floud, Jane Humphries, Paul Johnson, 2014-10-09 A new edition of the leading textbook on the economic history of Britain since industrialization Combining the expertise of more than thirty leading historians and economists

Volume 1 tracks Britain's economic history in the period ranging from 1700 to 1870 from industrialisation to global trade and empire. Each chapter provides a clear guide to the major controversies in the field and students are shown how to connect historical evidence with economic theory and apply quantitative methods. New approaches are proposed to classic issues such as the causes and consequences of industrialisation, the role of institutions and the state and the transition from an organic to an inorganic economy as well as introducing new issues such as globalisation, convergence and divergence, the role of science, technology and invention and the growth of consumerism. Throughout the volume, British experience is set within an international context and its performance benchmarked against its global competitors. **Health and Society in**

Twentieth Century Britain Helen Jones, 2014-01-14 Few things tell us more of a nation's general well-being than the development of the life expectancy of its citizens, the rising standards of health that they come to demand and how evenly that improvement is shared throughout society. Helen Jones examines the record of twentieth-century Britain in these respects. She has much heartening progress to record yet stark inequalities remain. Her book is thus both a review of and contribution to the current debates over gender, class and ethnic inequalities in standards of health in Britain today.

Innovation Peter Ackroyd, 2021-09-28 *Innovation*, the sixth and final volume in Peter Ackroyd's magnificent *History of England* series, takes readers from the Boer War to the Millennium Dome, almost a hundred years later. *Innovation* brings Peter Ackroyd's *History of England* to a triumphant close. Ackroyd takes readers from the end of the Boer War and the accession of Edward VII to the end of the twentieth century when his great granddaughter, Elizabeth II, had been on the throne for almost five decades. It was a century of enormous change encompassing two world wars, four monarchs, Edward VII, George V, George VI and the Queen, the decline of the aristocracy and the rise of the Labour Party, women's suffrage, the birth of the NHS, the march of suburbia and the clearance of the slums. It was a period that saw the work of the Bloomsbury Group and T. S. Eliot, Kingsley Amis and Philip Larkin, from the end of the post-war slump to the technicolor explosion of the 1960s, to free love and punk rock and from Thatcher to Blair. A vividly readable, richly peopled tour de force, *Innovation* is Peter Ackroyd writing at the height of his powers.
