Laboratory Preschools James Elicker,Nancy Barbour,2016-01-29 This volume is a collection of articles that showcase new research that is emerging from laboratory schools guided by principles of applied developmental science In the 1920 s new university laboratory preschools ushered in a modern era of child development research Campus preschools with a research mission were home to seminal studies of children s play and age related changes in children s abilities They produced data about normative child development along with evidence based practical advice for teachers and parents Now nearly 100 years later lab schools are still thriving in many colleges and universities as centers of research education and care for young children support for families and practical education for students and teachers of young children However with tightening higher education budgets and changing research agendas many lab schools are struggling to focus and balance these research education and service missions The chapter authors illustrate a variety of ways that faculty and laboratory school early childhood educators are collaborating to do research to address critical issues in the early childhood field including the preparation of the next generation of early childhood professionals This book was originally published as a special issue of Early Education and Development **Contemporary Perspectives on Research on Child Development Laboratory**

Schools in Early Childhood Education Olivia Saracho,2019-05-01 Child development laboratory schools are dedicated to research based instruction and furthering innovation in education Many of these schools are connected to universities where students are able to benefit from university resources and best practices Khan 2014 They have been in existence on university campuses for centuries in the United States The earliest colonial colleges e g Harvard Yale William and Mary University of Pennsylvania administered Latin schools or departments to prepare students for college Good Shirah 1988

Throughout the previous century college and university institutions have established child development laboratory schools. In the early 1900s they were initially considered to be sites for the recent discipline of child study but their purposes have progressed gradually. They also have assumed a fundamental function in promoting teaching research and service such as outreach engagement practice in child development and early childhood education. However a lot of them had to struggle for their survival when economic periods turned out to be problematic. Several extended operating programs were discontinued. Barbour McBride 2017. In 1894 John Dewey founded the University of Chicago Laboratory School. His laboratory school is unquestionably the most well known of experimental schools. It was used to research develop and confirm innovative theories and principles of child development and education. Later at the beginning of the early 1900s exemplary schools were developed as important centers for the preparation of teachers. Dewey's laboratory school and the preparation of interns in a hospital were used as a model for laboratory schools to focus on methodical research dual faculty university appointments and the preparation of preservice teachers. During the initial half of the 20th century laboratory schools increased in colleges and universities especially between 1920 and 1940. University based child development laboratory programs assumed a critical responsibility in contributing to the knowledge base on child development and early childhood education as well as the professional development of early childhood educators. This concept of the child development laboratory schools has heavily influenced modern views. Researchers and educators need to understand the current sources based on theoretical frameworks that contribute to the purposes of the child development laboratory schools. The contents of the volume reflect the major shifts in the views of early childhood researchers and educators in relation to the research on child development laboratory schools the role of child development laboratory programs in early childhood education and their relationship to theory research and practice. The chapters in this special volume reviews and critically analyzes the literature on several aspects of the child development laboratory schools. This volume can be a valuable tool to researchers who are conducting studies in the child development laboratory schools and practitioners who are working directly or indirectly in these schools. It focuses on important contemporary issues on child development laboratory schools in early childhood education ages 0 to 8 to provide the information necessary to make judgments about these issues. It also motivates and guides researchers to explore gaps in the child development laboratory schools literature.
