More specifically, teachers of English as a second or foreign language will find this book of value to them in a number of ways: as a tool to sharpen their own ears to hear some sounds that they might not have heard or been aware of before; as a tool to help them pronounce English sounds more intelligibly and accurately; as a resource on the phonological system of English; as a contributing factor to more effective linguistic pedagogy in the classroom; and as a way of developing a more wholesome attitude towards language. All aspects of language teaching and learning in general and toward pronunciation in particular. A glossary of technical terms and a list of study questions are included. **Applied English**

Kohmoto, 1965 **New Trends and Methodologies in Applied English Language Research** Carlos Prado-Alonso, 2009 This book has been shortlisted for an ESSE book award 2012 in English Language and Linguistics Junior Scholars. This volume approaches the analysis of variation in English from diachronic, diatopic and contrastive comparative perspectives. Part I Diachronic Studies applies a variationist methodology to the analysis of developments in the use of the courtesy marker please, adverbs in the genitive and a number of phrasal combinations with the verb get. It also examines Early Modern English regional dialect vocabulary. Part II Diatopic Studies is concerned with the analysis of several morphological and phonological features in different varieties of English, namely Standard English, Modern Scottish English, Galwegian English and Black South African English. Part III Contrastive Studies contains four chapters dealing with the contrastive analysis of a number of morphosyntactic features such as the use of modifiers of adjectives by advanced learners of English, the acquisition and use of aspect by advanced EFL learners with different mother tongue backgrounds, a comparison of the tempo-aspectual categories of English and Italian, and some of the problems encountered by researchers when compiling and analysing learner corpora of spoken language. **Applied English Phonology** Sutesaburo Kohmoto, 1965 **Applied English**
