Appalachia And America Autonomy And Regional Dependence:

Appalachia and America Allen Batteau, 2014-07-07 In this collection of fourteen essays scholars of Appalachian culture and society examine how the people contend with and adapt to the pressures of change thrust upon them Appalachia and America will appeal to a broad range of people interested in the southern mountains or in the policy issues of social welfare It deals cogently with the newest form of conflict affecting not only communities in Appalachia but urban and rural communities in America at large the struggle for local values and ways of life in the face of distant and powerful bureaucracies *Appalachia and America* Allen Batteau, 1983

Appalachia's Children: The Challenge of Mental Health David H. Loeff, 1971 The analysis of the developmental experiences and resulting personality patterns of Southern Appalachian children is based upon fieldwork in psychiatric clinics in eastern Kentucky where diagnostic evaluation and treatment were provided for emotionally disturbed children Observations on the mental health or mental disorder of the children are made concurrently with and in the light of observations on the ways in which eastern Kentucky families raise their children and on the kinds of adjustments to life that these children make The historical geographic and socioeconomic characteristics of the region in addition to characteristic family life styles and child rearing practices are presented as the necessary context for understanding the children's mental health problems Mental disorders are viewed largely as social phenomena and mental health or disorder is seen as firmly embedded in the social matrix The study of family structure and interrelationships reveals three prominent themes influential in child development emphasis on infancy of the children and family closeness poor development of verbal skills and the consideration of sexual maturation and functioning as a tabooed topic Instances of emotional disturbance discussed are grouped accordingly dependency themes communication patterns and psychosexual themes Kw *Confronting Ecological Crisis in Appalachia and the South* Stephanie McSpirit, Lynne Faltraco, Conner Bailey, 2012-07-05

Throughout Appalachia corporations control local economies and absentee ownership of land makes it difficult for communities to protect their waterways mountains and forests Yet among all this uncertainty are committed citizens who have organized themselves to confront both external power holders and often their own local state and federal agents Determined to make their voice heard and to improve their living conditions newfound partnerships between community activists and faculty and students at community colleges and universities have formed to challenge powerful bureaucratic infrastructures and to protect local ecosystems and communities *Confronting Ecological Crisis University and Community Partnerships in Appalachia and the South* addresses a wide range of cases that have presented challenges to local environments public health and social justice faced by the people of this region Editors Stephanie McSpirit Lynne Faltraco and Conner Bailey along with community leaders and their university partners describe stories of unlikely unions between faculty students and Appalachian communities in which both sides learn from one another and most importantly form a unique alliance in the fight against corporate control *Confronting Ecological Crisis* is a comprehensive

look at the citizens and organizations that have emerged to fight the continued destruction of Appalachia **A College For Appalachia** P. David Searles, 2021-05-11 Alice Spencer Geddes Lloyd was a New England woman with a mission in life In 1916 she settled on Caney Creek in Eastern Kentucky determined to bring higher education to this remote corner of Appalachia The school she founded now Alice Lloyd College continues to serve the area and its people and to stand as a tribute to Lloyd s remarkable energy determination and vision Lloyd s program combined a rigorous academic curriculum with an intense effort to instill a sense of service in the school s graduates This education was provided free and required only that the students abide by Lloyd s strict rules of conduct and pledge to remain in the mountains after graduating In the first full scale study of Lloyd s life and work and the institution she founded David Searles shows how this courageous and complex woman struggled throughout her long life against seemingly insurmountable odds to create an institution dedicated to improving life in Appalachia But as he acknowledges Lloyd s fundraising activities relied on harmful stereotypes that caused resentment among her mountain neighbors and she often angered others working in the mountains Despite the negative aspects of Lloyd s activities Searles casts serious doubt on the now fashionable conclusion that the women who came to the mountains to do good created more problems than they solved Lloyd s story he argues demonstrates that much good was indeed accomplished and that the people of the mountains recognized and appreciated her achievement

Fighting Back in Appalachia Stephen Fisher, 2009 Citizen resistance and struggle in Appalachia since 1960

Participatory Development in Appalachia Susan Emley Keefe, 2009 Often thought of as impoverished backward and victimized the people of the southern mountains have long been prime candidates for development projects conceptualized and controlled from outside the region This book breaking with old stereotypes and the strategies they spawned proposes an alternative paradigm for development projects in Appalachian communities one that is far more inclusive and democratic than previous models Emerging from a critical analysis of the modern development process the participatory development approach advocated in this book assumes that local culture has value that local communities have assets and that local people have the capacity to envision and provide leadership for their own social change It thus promotes better decision making in Appalachian communities through public participation and civic engagement Filling a void in current research by detailing useful hands on tools and methods employed in a variety of contexts and settings the book combines relevant case studies of successful participatory projects with practical recommendations from seasoned professionals Editor Susan E Keefe has included the perspectives of anthropologists sociologists and others who have been engaged sometimes for decades in Appalachian communities These contributors offer hopeful new strategies for dealing with Appalachia s most enduring problems strategies that will also aid activists and researchers working in other distressed or underserved communities Susan E Keefe is professor of anthropology at Appalachian State University She is the editor of *Appalachian Mental Health* and *Appalachian Cultural Competency A Guide for Medical Mental Health and Social Service Professionals*

Southern West Virginia and the Struggle for Modernity Christopher Dorsey, 2011-07-29 This work addresses how southern West Virginia's complex and often chaotic history still impacts key aspects of modern day life for Mountaineers. At its center are fundamental elements of late 19th and early 20th century Appalachian existence such as the predominance of subsistence farming, the coming of the Industrial Revolution, the rise of company towns, growing coal company influence, and the resultant expansion of political corruption. It examines how the region's Appalachian culture and identity have adapted to and been affected by these factors as well as how stereotypical perceptions held by those outside the region have created both opportunities and barriers to modernization for southern West Virginians. Authority and the Mountaineer in Cormac McCarthy's Appalachia Gabe Rikard, 2013-08-29 The author uses theories on power, resistance, and discipline developed by Michel Foucault to analyze the interactions of mountaineers and the authorities who have attempted to modernize them. The book shows how McCarthy manipulates Appalachian images while engaging in a form of archeology of Appalachian constructs. Initially, the book explores the interplay of the dominance-resistance duality. Roads provided ways into the mountains for industry and ways out for the mountaineer. Cotton mill villages and regional cities served as disciplined destinations for Appalachian out-migrants. McCarthy's character Lester Ballard, Child of God, represents the epitome of hillbilly delinquency. The author explains how the iconic image of the mountaineer, a notion cultivated by fiction writers, benevolent organizations, and academics othered the mountain people as deviants. The book ends by considering the ways in which *The Road* returns to the rhetorical and geographical region of his early work and how it fits into McCarthy's Appalachian oeuvre.

The Life and Death of a Rural American High School (1995) Deyoung Alan, 2017-12-22 Published in 1995, this book provides an account of a detailed research project focusing on a rural school in West Virginia. Researched from several social science perspectives, the book strives to capture intersections between biography and history in a particular public school, Burnsville High and Middle School in Braxton County, that has been influenced by social, political, and economic forces, eventually leading to its closure. The author also discusses how the example of this school can be applied within the framework of American public education and Western culture itself. Based on research from unstructured interviews, oral histories, historical records, and intermittent fieldwork that took place between 1989 and 1992, the book provides an in-depth look at a specific school, offering a basis for discussing rural schools in general. It challenges the idea that bigger schools are better and more efficient, schools in terms of the individual, the social life of the school, and the surrounding community, and considers the lack of scholarly accounts available on the issues, controversies, and social dynamics that surround these vital community matters.
