The Limits of Pilgrimage Place T.K Rousseau,2021-07-28 Through case studies of three pilgrimage sites related to the Virgin Mary this book explores how pilgrimage places in today s globalized world do not exist as contained spaces but have porous boundaries both physically and conceptually Taking an interdisciplinary approach that draws on art history and heritage studies the book considers the cathedral of Chartres France Medjugorje in Bosnia and Herzegovina and the House of Mary near Ephesus Turkey In all three sites the place of pilgrimage accommodates multiple different purposes and groups of people intermingling devotional and commercial aspects different memory narratives and heterogeneous audiences By mapping these porous boundaries the book calls into question how we define pilgrimage place and shows how pilgrimage sites are not set apart from the everyday world but intimately connected with wider cultural political and material dynamics This study will be relevant to scholars engaging with issues of pilgrimage cultural heritage and art across religious studies art history anthropology and sociology
