New Age Capitalism Kimberly J. Lau, 2015-11-10 The pursuit of health and wellness has become a fundamental and familiar part of everyday life in America. We are surrounded by an enticing world of products, practices, and promotions assuring health and happiness: cereal boxes claim that their contents can reduce the risk of heart disease; bars of aromatherapy soap seek to wash away our stresses; newspapers celebrate the wonders of the latest superfoods and herbal remedies. No longer confined to the domain of Western medicine, suggestions for healthy living often turn to alternatives originating in distant times and places in cultures very different from our own. Diets from ancient or remote groups are presented as cures for everything from colds to cancer; exercise regimens based on Eastern philosophies are heralded as paths to physical health and spiritual wellbeing. In *New Age Capitalism*, Kimberly Lau examines the ideological work that has created this billion-dollar business and allowed Eastern and other non-Western traditions to be coopted by Western capitalism. Extending the orientalist logic to the business of health and wellness, American companies have created a lucrative and competitive market for their products, encouraging consumers to believe that they are making the right choices for personal as well as planetary health. In reality, alternative health practices have been commodified for an American public longing not only for health and wellness but also for authenticity, tradition, and a connection to the cultures of an imagined Edenic past. Although consumers might prefer to buy into authentic non-Western therapies, *New Age Capitalism* argues that the market economy makes this goal unattainable.

Small Batch Suzanne Cope, 2014-10-10 Artisanal foods are making a comeback as more and more people seek to stock their pantries and their bellies with handcrafted or locally grown and made foods. Specialty markets and sections at grocery stores are catering to this new desire for the special, the unique, the carefully made foods. *Small Batch: Pickles, Cheese, Chocolate, Spirits, and the Return of Artisanal Foods* colorfully details the landscape of the newest wave of the artisanal food revolution by looking at four foods that whet our appetites for specialty. Considering the history and the cultural issues surrounding the resurgence of craft food, including the evolving definition of terroir, the importance of narrative in valuing artisanal food, and the way that these present food trends connect with and upend their rich history, *Small Batch* seeks to define and update the term artisanal and give insight into the influences, challenges, and identity of food artisans today. Suzanne Cope sumptuously surveys the collective history of the production of cheese, pickles, chocolate, and alcoholic spirits and brings this narrative to the present by incorporating interviews with over fifty modern artisans. Cope details the influences, challenges, and evolving identity of these modern craft industries and places them in context within the recent resurgence and growth of the artisanal segment of the market. Readers interested in craft foods and what it means to be an artisan will find here a fascinating history and updating of both.
