Britten Companion:

The Britten Companion Christopher Palmer, 1984-01-01 **Britten's Children** John Bridcut, 2011-04-21 Britten's Children confronts the edgy subject of the composer's obsessional yet strangely innocent relationships with adolescent boys. One of the hallmarks of Benjamin Britten's music is his use of boys' voices and John Bridcut uses this to create a fresh prism through which to view the composer's life. Interweaving discussion of the music he wrote for and about children with interviews with the boys whom Britten befriended, Bridcut explores the influence of these unique friendships, notably with the late David Hemmings, and how they helped Britten maintain links with his own happy childhood. In a remarkable part of the book, Bridcut tells for the first time the full story of Britten's love affair in the 1930s with the 18-year-old German Wulff Scherchen, son of the conductor Hermann Scherchen. As Paul Hoggart of *The Times* commented, this type of love belonged to an emotional landscape that has vanished for ever, and we are the poorer for it. Since making the film, the author has extended his research to include friendships Britten had with children which have not previously been documented. The documentary *Britten's Children* won the Royal Philharmonic Society's 2005 Award for Creative Communication; this serious and beautiful film explored one aspect of a composer's life in great depth. Avoiding the temptation of sensationalism, *Britten's Children* was imaginatively researched and both touching and revelatory.

Britten's Unquiet Pasts Heather Wiebe, 2012-10-04 Heather Wiebe's book looks to the music of Benjamin Britten to elucidate a British postwar vision of cultural renewal.

Britten's Musical Language Philip Rupprecht, 2006-11-23 Blending insights from linguistic and social theories of speech, ritual, and narrative with music analytic and historical criticism, *Britten's Musical Language* offers interesting perspectives on the composer's fusion of verbal and musical utterance in opera and song. It provides close interpretative studies of the major scores, including *Peter Grimes*, *Billy Budd*, *The Turn of the Screw*, *War Requiem*, *Curlew River*, and *Death in Venice*, and explores Britten's ability to fashion complex and mysterious symbolic dramas from the interplay of texted song and a wordless discourse of motives and themes. Focusing on the performative and social basis of language, Philip Rupprecht replaces traditional notions of textual expression in opera with the interpretation of topics such as the role of naming and hate speech in *Peter Grimes*, the disturbance of ritual certainty in the *War Requiem*, and the codes by which childish innocence is enacted in *The Turn of the Screw*.

Britten's Gloriana Paul Banks, 1993 This volume is based on a selection of papers presented during a study course devoted to *Gloriana*, held at the Britten Pears School for Advanced Musical Studies in 1991. *Gloriana* has been a source of controversy since its premiere as part of the Coronation celebrations in 1953. It was planned as a national opera of broad appeal by its authors, Benjamin Britten and William Plomer, but despite wide coverage in the media, the opera failed to establish itself in the repertoire until a new production in 1966 revealed it to be a powerful and stageworthy work. In recent years, it has attracted an increasing amount of scholarly attention. This volume offers essays by ROBERT HEWISON, PHILIP REED, ANTONIA MALLOY, DONALD MITCHELL, and PETER EVANS which explore the opera's

cultural background the early stages of its creative evolution the first critical responses and various aspects of the work itself these are supplemented by a list of source materials for the opera and the works derived from it and an extensive bibliography

The Making of Peter Grimes Paul Banks, 2000 Historic accounts and new material illuminate the creation early history and artistic intentions of Britten's first opera The premiere of Peter Grimes on 7 June 1945 announced the emergence of the first great composer of opera in English since Purcell Surviving documents offer evidence of the complex interaction of differing ideas about the possible shape and content of the new work most notably the composition draft which these essays are particularly concerned to illuminate They juxtapose historic material with fresh studies three items written by members of the team involved in the 1945 production are set alongside specially commissioned articles with the three fold intention of presenting the views of some of the creators of the opera outlining the work's early history and offering contemporary perspectives on its historical context and its message Professor PAUL BANKS is Research Development Fellow at the Royal College of Music Contributors PAUL BANKS PHILIP BRETT BENJAMIN BRITTEN ERIC CROZIER DONALD MITCHELL PETER PEARS PHILIP REED ROSAMUND STRODE Packed away in its pages is a very large amount of new information TIMES LITERARY SUPPLEMENT A fitting tribute to the opera's enduring international stature and undoubtedly a significant achievement in Britten studies MUSIC AND LETTERS

Storytelling in Opera and Musical Theater Nina Penner, 2020-10-06 Storytelling in Opera and Musical Theater is the first systematic exploration of how sung forms of drama tell stories Through examples from opera's origins to contemporary musicals Nina Penner examines the roles of character narrators and how they differ from those in literary and cinematic works how music can orient spectators to characters points of view how being privy to characters inner thoughts and feelings may evoke feelings of sympathy or empathy and how performers choices affect not only who is telling the story but what story is being told Unique about Penner's approach is her engagement with current work in analytic philosophy Her study reveals not only the resources this philosophical tradition can bring to musicology but those which musicology can bring to philosophy challenging and refining accounts of narrative point of view and the work performance relationship within both disciplines She also considers practical problems singers and directors confront on a daily basis such as what to do about Wagner's Jewish caricatures and the racism of Orientalist operas More generally Penner reflects on how centuries old works remain meaningful to contemporary audiences and have the power to attract new more diverse audiences to opera and musical theater By exploring how practitioners past and present have addressed these issues Storytelling in Opera and Musical Theater offers suggestions for how opera and musical theater can continue to entertain and enrich the lives of 21st century audiences
