Broadcasting In Africa A Continental Survey Of Radio And Television:

Broadcasting in Africa Sydney W. Head, 1974 Tonregie Tonrundrunktechnik Bildtelegrafienetz Fernsehnetz Kabelfernsehnetz Radiobetrieb Fernsehbetrieb Radiostation Afrika Geschichte **Television and Radio in the United Kingdom** Burton Paulu, 1981 *Encyclopedia of Radio 3-Volume Set* Christopher H. Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio s technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment on the significance of the particular person organization or topic being examined **Mass Media in Sub-Saharan Africa** Louise M. Bourgault, 1995-06-22 Bourgault mass communication Northern Michigan U Marquette analyzes the historical political economic social cultural and stylistic factors that have shaped media products in African radio television and newspapers She investigates the three major influences of the precolonial legacy of the oral tradition the presence of an alienated managerial class and the domination of African nations by systems based on patronage and looks at recent developments in technology and the move toward privatization Annotation c Book News Inc Portland OR booknews com *Routledge Revivals: Radio Broadcasting from 1920 to 1990 (1991)* Diane Foxhill Carothers, 2016-11-10 First published in 1991 this book presents a comprehensive annotated bibliography of radio broadcasting Its eleven chapter categories cover almost the entire range of radio broadcasting with the exception of radio engineering due to its technical complexity although some of the historical volumes do encompass aspects thus providing background material Entries are primarily restricted to published books although a number of trade journals and periodicals are also included Each entry includes full bibliographic information including the ISBN or ISSN where available and an annotation written by the author with the original text in hand Psychology in Africa (Psychology Revivals) Mallory Wober, 2014-06-17 It is now well over a hundred and fifty years since the first celebrated geographical explorations of Africa took place However it was many years before there began quests of a different kind the investigation of behaviour personality attitude and ability among Africa s people Originally published in 1975 this book is an account of that work the first explorations in Africa of psychology In an exhaustive and well documented report the author a psychologist who had himself done research in Nigeria Uganda and who had lectured at Makerere University drew together the main threads of the research carried out so far putting the issues in an African perspective but anchoring them firmly within the framework of modern psychological thinking and technique of the time Are there any common personality and intellectual characteristics among Africans How does weaning affect African child development How have Africans feelings developed about city life and industrial work The questions the author considers range from the broad based to the specific The

challenges which lay ahead for African investigators then moving into the mainstream of the work are also discussed But perhaps above all the book made a convincing case for psychology becoming a relevant and finely honed discipline in Black Africa characterised by practical application to Black African society Each chapter covers a defined area of modern psychology of the time and presents a comprehensive survey in a language no more technical than the subject warrants At the time it was felt this book would be invaluable to students of Africa secondary education whose course included a psychology component and to African students beginning a degree course in psychology It would also have provided an informative supplement to courses in medicine development studies political science sociology and anthropology

Historical Dictionary of The Gambia David Perfect, 2024-09-23 A former British colony The Gambia became independent in 1965 and has had only three presidents since then While The Gambia remained a very poor country under its first prime minister and then president from 1970 Sir Dawda Jawara democratic institutions survived multi party elections were free and fair and the country's human rights record was excellent In contrast there were seriously flawed elections and extensive human rights abuses under first the Armed Forces Provisional Ruling Council and then President Yahya Jammeh Since Adama Barrow became president in 2017 democratic rule and fair elections have been restored although many challenges remain for example the 2020 Constitution has still not been implemented This book examines all aspects of recorded Gambian history from the 15th century when the first European expeditions arrived to the present Historical Dictionary of The Gambia Sixth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 1 000 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about The Gambia

The Quest for Press Freedom Meseret Chekol Reta, 2013-05-16 The Quest for Press Freedom is a book about press development and freedom in Ethiopia with a focus on the state media. It examines the building of a modern media institution over the last one hundred years of its existence and the restrictions against its freedoms. The significance of this work lies in its originality and that it addresses these two issues across three distinct epochs: the monarchy era, the Marxist military regime, and the current ethnic federalist regime. The book examines the political and social situations in each of these periods and analyzes the effects they had on the media. The book also provides examples of how journalists working for the government-run media have a strong desire to exercise their constitutional right to press freedom. In the final chapter, Reta offers recommendations for a more viable media system in Ethiopia.

On Record Schalk van der Merwe, 2017-07-12 Popular Afrikaans music artists have done well in post-apartheid South Africa and enjoy the enthusiastic support of loyal fans. This support is fuelled by a complex set of emotions linked to being Afrikaanse in a culturally pluralistic society. In On Record, van der Merwe investigates the interplay between popular music and the unfolding of Afrikaans culture politics from the start of the twentieth century to the present. It includes a search for the earliest recorded Afrikaans songs and documents subsequent phases of music development that reflect the agency of ordinary individuals, artists, and listeners against a background of fundamental societal and political change. It regards both the music mainstream and the alternative and reveals, among other things, historical cases of compliance and resistance regarding the master narrative of Afrikaner nationalist ideology, the attempts by cultural entrepreneurs to establish authority over popular Afrikaans culture, class tension, lasting racial exclusivity, protest and censorship, and the post-apartheid invocation of Afrikaner nostalgia and white victimhood. Ultimately, On Record provides an uninterrupted account and a critique of the entire history of recorded popular Afrikaans music up to the present.
