**Digital Integration, Growth and Rational Regulation** Paul J.J. Welfens, 2007-10-25 With the Lisbon Agenda the European Council has set ambitious goals for 2010 namely to make the Community the most dynamic knowledge based economy in the world This goal clearly indicates that the Council the Commission and the European Parliament are fully aware of the high economic political and social relevance of information and communication technology including modern digital services whose broad availability is desirable from the perspective of all major users groups Firms private households and government agencies The Commission indeed has emphasized that the i2010 project is a major pillar of the policies with a focus on the Lisbon Agenda Creating faster broadband networks in the EU and providing more diversified and more high quality services at the same time will indeed be crucial for the Union if the growth potential of modern eCommunications is to be fully exploited Naturally the telecommunications sector evolution has to be discussed in the context of the overall expansion dynamics of the information and communication technology ICT sector At the same time the competition policy framework will affect digital dynamics in OECD countries In the EU the interplay between supranational regulations and national regulations is quite important for the development of the telecommunications sector This sector is subject to regulation for which the EU has created a framework in 2003 which is up for review in 2006

**Shifting Paradigms** Zia Qureshi, Cheonsik Woo, 2022-01-11 Addressing the big questions about how technological change is transforming economies and societies Rapid technological change likely to accelerate as a consequence of the COVID 19 pandemic is reshaping economies and how they grow But change also causes disruption creates winners and losers and produces social stress This book examines the challenges of digital transformation

and suggests how creative policies can make it more productive and inclusive Shifting Paradigms is the second book on technological change produced by a joint research project of the Brookings Institution and the Korea Development Institute Contributors are experts from the United States Europe and Korea The first volume Growth in a Time of Change was published by Brookings in February 2020 The book s underlying thesis is that the future is arriving faster than expected Long accepted paradigms about economic growth are changing as digital technologies transform markets and nearly every aspect of business and work Change will only intensify with advances in artificial intelligence and other innovations Investors business leaders workers and public officials face many questions Is rising market concentration inevitable with the new technologies or can their benefits be more widely shared How can the promise of FinTech be captured while managing risks Should workers fear the new automation Are technology driven shifts in business and work causing income inequality to rise How should public policy respond Shifting Paradigms addresses these questions in an engaging manner for anyone interested in understanding how the economic and social agenda is being transformed by today s winds of change

**Digital Africa** Tania Begazo,Moussa Blimpo,Mark Dutz,2023-04-04 All African countries need better and more jobs for their growing populations Digital Africa Technological Transformation for Jobs shows that broader use of productivity enhancing digital technologies by enterprises and households is imperative to generate such jobs including for lower skilled people At the same time broader use can support not only countries short term objective of postpandemic economic recovery but also their vision of economic transformation with more inclusive growth These outcomes are not automatic however Mobile internet availability has increased throughout the continent in recent years but Africa s uptake gap is the highest in the world Areas with at least 3G mobile internet service now cover 84 percent of country populations averaged across Sub Saharan Africa but only 22 percent use such services The average African business lags in the use of smartphones and computers as well as more sophisticated digital technologies that catalyze further productivity gains Two issues explain the usage gap the affordability of these new technologies and the willingness to use them For the 40 percent of Africans below the extreme poverty line mobile data plans alone would cost one third of their incomes in addition to the price of access devices apps and electricity Data plans for small and medium businesses are also more expensive than in other regions Moreover shortcomings in the quality of internet services and in the supply of attractive skill appropriate apps that promote entrepreneurship and raise earnings dampen people s willingness to use them For those countries already using these technologies the development payoffs are significant New empirical studies for this report add to the rapidly growing evidence that mobile internet availability directly raises enterprise productivity increases jobs and reduces poverty across Africa To realize these and other benefits more widely Africa s countries must implement complementary and mutually reinforcing policies to strengthen both consumers ability to pay and willingness to use digital technologies These interventions must prioritize productive use to generate large numbers of inclusive jobs in a region poised to benefit from a

massive youthful workforce one projected to become the world's largest by the end of this century      **Journalism Next: A Practical Guide to Digital Reporting and Publishing, 2nd Edition** Mark Briggs, 2013 Do you want to help build what's next for journalism Then jump into Mark Briggs proven guide for leveraging digital technology to do better journalism The media landscape changes with such ferocious speed that as soon as new technologies gain a foothold older ones become obsolete To keep ahead and abreast of these ever evolving tools and techniques Briggs offers practical and timely guidance for both the seasoned professional looking to get up to speed and the digital native looking to root their tech know how in real journalistic principles Learn how to effectively blog crowdsource use mobile applications mine databases and expertly capture audio and video to report with immediacy cultivate community and tell compelling stories Journalism Next will improve digital literacy fast Briggs begins with the basics and then explores specialized skills in multimedia so you can better manage online communities and build an online audience Journalism Next is a quick read and roadmap you'll reference time and time again Dive into any chapter and start mastering a new skill right away And for today's journalist who can afford to waste any time
