Reading Stories for Comprehension Success Katherine L. Hall, 2004-12-27 A flexible high interest program that can be used with all regular and special students grades 10-12 Each volume provides over 45 factual stories with related teaching materials 15 at each level Controlling Illegal Drugs Sandro Segre, This study presents and compares the drug policies in use in the United States Sweden and Italy to limit the use and abuse of substances such as marijuana hashish cocaine heroin and amphetamines It also focuses on attempts to suppress the traffic in these drugs A primary objective of Segre's work is theoretical to evaluate and explain by means of a comparative method applied to the study of individual cases the respective level of success of these policies measured according to conventional criteria The aim of this comparison between Swedish drug policies a positive case and U S and Italian policies negative cases is to evaluate the effect of these policies on drug use Segre comes to the general conclusion that there is a causal relationship between drug use and drug control This is deduced from the association between Swedish policies and the limited diffusion of narcotics in Sweden on the one hand and from the association between U S and Italian policies and the wide diffusion of these substances in the United States and in Italy on the other hand This study does not aim to give a complete explanation of the high or low use of narcotics But what Segre does say is that the level of drug consumption could be a consequence of other causes which are considered here not as independent variables but on the contrary as intervening variables The literature in this field needs to dwell particularly on social and psychological causes Examples are the influence of parents and peers attitudes toward the use of drugs or abstention from them the positive or negative images that persons have of themselves and the possibility or rather the difficulty of establishing significant forms of interpersonal communication This is a modest serious contribution to the vexing issue of the causes of drug use in advanced societies Encyclopedia of Library and Information Science Allen Kent, Harold Lancour, Jay E. Daily, 1989-03-29 The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes This thorough reference set written by 1300 eminent international experts offers librarians information computer scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science Impeccably researched cross referenced alphabetized by subject and generously illustrated the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field **The American Annual** [Anonymus AC00557327], 1984
