The American Musical Landscape Richard Crawford, 2000-06-30 This book reflects a breakthrough in American music studies an unrecognized field among traditional musicologists until the past few decades during which enormous progress has been made in documenting three centuries of American musical activities and figures Time and effort had to be expended exclusively on the development of basic historical studies The time has come for a new phase one that can take a creative interpretive approach Professor Crawford s study will introduce this higher level of scholarship into the field of American music studies Vivian Perlis author of *Charles Ives Remembered* A major statement by a senior scholar on what American musicology is all about These themes are also topical they come at a time when much more research is being done in American music but little thought is being given to the big picture the vision the philosophy and the implications of historical research Now is the time for a synthesis and there are few scholars better equipped to do that in American music than Richard Crawford Michael Broyles author of *Music of the Highest Class*

All of This Music Belongs to the Nation Kenneth J. Bindas, 2016-08-23 Established in 1935 under the aegis of the Works Progress Administration the Federal Music Project FMP was designed to employ musicians who were hard hit by the economic devastation of the Great Depression All of This Music Belongs to the Nation is the first book length study of the FMP and the many paradoxes and conflicts that marked its four year existence As Kenneth J Bindas points out the FMP leadership was more conservative than that of the sister projects in art theater and writing Its stated aim of raising the taste of musicians and citizens alike created a particular problem Although many unemployed musicians came from the sphere of popular music such as jazz and Tin Pan Alley the FMP chose to emphasize cultured music particularly the orchestral works of composers in the European classical tradition Inevitably this created tension within the project as those musicians deemed popular received second class treatment and in the case of racial and ethnic minorities were segregated and stereotyped Despite these troubles Bindas demonstrates the FMP succeeded in bringing music to millions of listeners across the country
