serve Alaska Natives within a several hundred mile radius Clara Burke focused on orphaned needy and convalescing children raising hundreds in St Stephen s Mission Home The Gwich in in turn embraced and engaged in the church and hospital work making them community institutions Bishop Peter Trimble Rowe came to recognize the hospital and orphanage work at Fort Yukon as the church s most important work in Alaska

A Window to Heaven Patrick Dean,2021-03-02 The captivating and heroic story of Hudson Stuck an Episcopal priest and his team s history making summit of Denali In 1913 four men made a months long journey by dog sled to the base of the tallest mountain in North America Several groups had already tried but failed to reach the top of a mountain whose size occupying 120 square miles of the earth s surface and position as the Earth s northernmost peak of more than 6 000 meters elevation make it one of the world s deadliest mountains Although its height from base to top is actually greater than Everest s it is Denali s weather not altitude that have caused the great majority of fatalities over a hundred since 1903 Denali experiences weather more severe than the North Pole with temperatures of forty below zero and winds that howl at 80 to 100 miles per hour for days at a stretch But in 1913 none of this mattered to Hudson Stuck a fifty year old Episcopal priest Harry Karstens the hardened Alaskan wilderness guide Walter Harper and Robert Tatum both just in their twenties They were all determined to be the first to set foot on top of Denali In *A Window to Heaven* Patrick Dean brings to life this heart pounding and spellbinding feat of this first ascent and paints a rich portrait of the frontier at the turn of the twentieth century The story of Stuck and his team will lead us through the Texas frontier and Tennessee mountains to an encounter with Jack London at the peak of the Yukon Goldrush We experience Stuck s awe at the rich Aleut and Athabascan indigenous traditions and his efforts to help preserve these ways of life Filled with daring exploration and rich history *A Window to Heaven* is a brilliant and spellbinding narrative of success against the odds

The Log of a Snow Survey Patrick Armstrong,2014-12-09 Snow surveyors throughout the world get to see what most of us only dream about stunning terrain birdlife and animals rarely seen in lower elevations and stars that seem close enough to grab Patrick Armstrong reveals the little known world of a snow surveyor in this fascinating account transporting readers into the remote winter world of the Sierra Nevada in California High in the mountains Armstrong and his companions must cross twelve thousand foot passes and dig through snow to gain entrance to rock or log cabins for shelter at night Traveling on skis they often traverse more than a hundred miles each month during the winter and in the process climb and descend twenty or thirty thousand feet This account also provides important and practical information on topics such as safe winter travel on skis avalanche prediction and avoidance cabin life cooking on and maintaining wood burning stoves wildlife and birdlife Whether youre involved in snow surveying and snowmelt water management or youre just someone who enjoys the winter wilderness and the mountains prepare yourself to enter a beautiful and remarkable winter world that has its dangers and sublime beauties

Tigers of the Snow Jonathan Neale,2002-06-29 *Tigers of the Snow* is true story of the tragedy and survival on one of the world s most dangerous mountains In 1922 Himalayan climbers were British gentlemen and their

Sherpa and Tibetan porters were coolies unskilled and inexperienced casual laborers By 1953 Sherpa Tenzing Norgay stood on the summit of Everest and the coolies had become the Tigers of the Snow Jonathan Neale's absorbing book is both a compelling history of the oft forgotten heroes of mountaineering and a gripping account of the expedition that transformed the Sherpas into climbing legends In 1934 a German led team set off to climb the Himalayan peak of Nanga Parbat the ninth highest mountain on earth After a disastrous assault in 1895 no attempt had been made to conquer the mountain for thirty nine years The new Nazi government was determined to prove German physical superiority to the rest of the world A heavily funded expedition was under pressure to deliver results Like all climbers of the time they did not really understand what altitude did to the human body When a hurricane hit the leading party just short of the summit the strongest German climbers headed down and left the weaker Germans and the Sherpas to die on the ridge What happened in the next few days of death and fear changed forever how the Sherpa climbers thought of themselves From that point on they knew they were the decent and responsible people of the mountain Jonathan Neale interviewed many old Sherpa men and women including Ang Tsering the last man off Nanga Parbat alive in 1934 Impeccably researched and superbly written Tigers of the Snow is the compelling narrative of a climb gone wrong set against the mountaineering history of the early twentieth century the haunting background of German politics in the 1930s and the hardship and passion of life in the Sherpa valleys
