Building Healthy Communities for Positive Youth Development Michael J. Nakkula, Karen C. Foster, Marc Mannes, Shenita Bolstrom, 2010-07-23 It is a great pleasure to offer this volume from Michael J Nakkula Karen C Foster Marc Mannes and Shenita Bolstrom as the latest in the Search Institute Series on Developmentally Attentive Community and Society Its importance to the series and this eld of inquiry and practice is readily evident in its title Building Healthy Communities for Positive Youth Development Since the early 1990s Search Institute has invited and encouraged communities of all shapes and sizes to use its framework of Developmental Assets and principles of asset building to create strong vibrant and welcoming communities for children and youth We have operated largely at the grassroots level encouraging innovation and adaptation around a shared vision rather than proposing a program or model for replication We seek to learn as much from the communities as they learn from us This book offers in depth case studies of what happened in eight diverse communities that took up our invitation In them we see a wide array of strategies and approaches that on the surface seem to have little coherence But as Nakkula and colleagues found underlying each of these distinct efforts was a deep commitment to transforming the social norms of community life to more effectively attend to young people s healthy development throughout the first two decades of life There have been many ambitious efforts aimed at comprehensive community change on behalf of young people

Between these two polarities is nestled a third way Middle Space models carve out space in the middle ground for dialogue relationships safe spaces exchange of ideas not to mention inclusive activities The concept of Middle Space is simple It s not our space nor is it their space but a shared space somewhere in the middle However Middle Space is about much more than simply utilising so called third spaces Rather it s a whole new approach to youth work in which the physical space becomes a metaphor for the youth work itself While the concept is simple it is a profoundly new way of doing youth ministry This book will be the first of its kind in describing and reflecting upon emerging Middle Space models and also giving some tips and insights for best practices moving forward
