Americas Musical Landscape With Cassette:

The American Musical Landscape Richard Crawford, 2000-06-30 This book reflects a breakthrough in American music studies an unrecognized field among traditional musicologists until the past few decades during which enormous progress has been made in documenting three centuries of American musical activities and figures Time and effort had to be expended exclusively on the development of basic historical studies The time has come for a new phase one that can take a creative interpretive approach Professor Crawford s study will introduce this higher level of scholarship into the field of American music studies Vivian Perlis author of Charles Ives Remembered A major statement by a senior scholar on what American musicology is all about These themes are also topical they come at a time when much more research is being done in American music but little thought is being given to the big picture the vision the philosophy and the implications of historical research Now is the time for a synthesis and there are few scholars better equipped to do that in American music than Richard Crawford Michael Broyles author of Music of the Highest Class **Musical Landscapes in Color** William C. Banfield, 2023-02-21 Now available in paperback William C Banfield s acclaimed collection of interviews delves into the lives and work of forty one Black composers Each of the profiled artists offers a candid self portrait that explores areas from training and compositional techniques to working in a exclusive canon that has existed for a very long time At the same time Banfield draws on sociology Western concepts of art and taste and vernacular musical forms like blues and jazz to provide a frame for the artists achievements and help to illuminate the ongoing progress and struggles against industry barriers Expanded illustrations and a new preface by the author provide invaluable added context making this new edition an essential companion for anyone interested in Black composers or contemporary classical music Composers featured Michael Abels H Leslie Adams Lettie Beckon Alston Thomas J Anderson Dwight Andrews Regina Harris Baiocchi David Baker William C Banfield Ysaye Maria Barnwell Billy Childs Noel DaCosta Anthony Davis George Duke Leslie Dunner Donal Fox Adolphus Hailstork Jester Hairston Herbie Hancock Jonathan Holland Anthony Kelley Wendell Logan Bobby McFerrin Dorothy Rudd Moore Jeffrey Mumford Gary Powell Nash Stephen Newby Coleridge Taylor Perkinson Michael Powell Patrice Rushen George Russell Kevin Scott Evelyn Simpson Curenton Hale Smith Billy Taylor Frederick C Tillis George Walker James Kimo Williams Julius Williams Tony Williams Olly Wilson and Michael Woods [The Music of Multicultural America](#) Kip Lornell, Anne K. Rasmussen, 2016-01-04 The Music of Multicultural America explores the intersection of performance identity and community in a wide range of musical expressions Fifteen essays explore traditions that range from the Klezmer revival in New York to Arab music in Detroit to West Indian steel bands in Brooklyn to Kathak music and dance in California to Irish music in Boston to powwows in the midwestern plains to Hispanic and Native musics of the Southwest borderlands Many chapters demonstrate the processes involved in supporting promoting and reviving community music Others highlight the ways in which such American institutions as city festivals or state and national folklife agencies come into play Thirteen themes and

processes outlined in the introduction unify the collection's fifteen case studies and suggest organizing frameworks for student projects. Due to the diversity of music profiled in the book—Mexican mariachi, African American gospel, Asian West Coast jazz, women's punk, French American Cajun, and Anglo American sacred harp—and to the methodology of fieldwork, ethnography, and academic activism described by the authors, the book is perfect for courses in ethnomusicology, world music, anthropology, folklore, and American studies. Audio and visual materials that support each chapter are freely available on the ATMuse website supported by the Archives of Traditional Music at Indiana University.

More precisely, it looks at infrastructures and practices of music making and consuming primarily in the post-Napster era of digitization, with some chapters looking back on the technological precursors to digital culture marked by the emergence of digital tools and platforms such as YouTube or Spotify. The first section provides a critical overview of theories addressing popular music and digital technology, while the second section offers an analysis of the relationship between musical cultures, taste constructions of authenticity, and technology. The third section offers case studies on the materialities of music consumption from outside the western core of popular music production.
